1 Preface

1.1 About This Guide

Thank you for selecting CloudAlly for Box. Relax! All your Box data is now securely protected with easy recovery from data loss. CloudAlly comprehensively backs up your data on industry-leading AWS S3 storage. Our product's ethos is to provide feature-rich backup and recovery with security, ease of use, and flexibility woven in.

CloudAlly is cloud-native, a full cloud-to-cloud solution. No installation is required, the setup is hassle-free, backup is easy, and there are flexible recovery and export options. Read on for instructions about how to activate and manage your backups, restore your data by keyword, from any point-in-time, and at any granular/hierarchical level, export your backups to your own storage, activate summary/exception reporting, and set up MFA and other helpful features.

Questions or comments? Please contact us at support@cloudally.com or search our Knowledge Base at <https://support.cloudally.com/hc/en-us>.

1.2 Audience

This guide is intended for individuals who administer CloudAlly for Box.

1.3 What's in This Guide

This guide is organized to help you find the information you need to manage CloudAlly for Box. It is divided into functional parts intended to support you as you manage your environment:

- [Creating and Accessing Your Backup Account](#)
- [Backing Up Your Data](#)
- [Recovering Your Backed Up Data](#)
- [Filtering and Viewing Drill-Down Details](#)
- [Managing Your Account](#)
- [Managing Subscriptions and Payments](#)

2 Creating and Accessing Your Backup Account

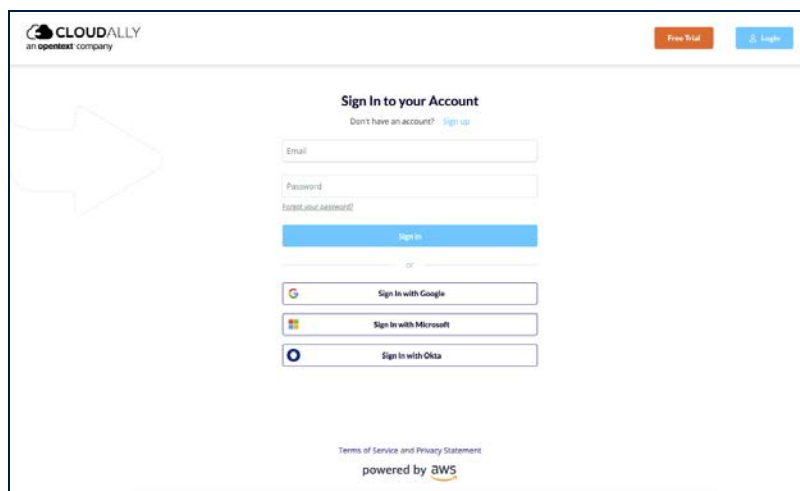

2.1 Prerequisites

To administer backups for the Box environment, the following is required:

- Box Business Plan

2.2 Sign Up/Sign In from the CloudAlly Home Page

1. In your Internet browser, open cloudally.com and click **Login**.
2. Click **Customers**. The *Sign In* page is displayed.

3. If you don't have an account yet, click **Free Trial**. The *Sign Up* page is displayed.

The screenshot shows the CloudAlly website's sign-up page. On the left, there's a section titled "#1 SaaS Data Protection Platform" with bullet points: "Never Face Data Loss, Again!", "14 Day Free Trial", "5 Minutes Setup", and "No Credit Card Required". It also mentions "Trusted by over 16,000+ Customers Worldwide" and shows logos for various clients. On the right, the "14 Day Free Trial" form is displayed. It includes fields for "First Name", "Last Name", "Email", "Password", and "Confirm Password". There's a dropdown menu for "Location" currently set to "US East (Northern Virginia)". Below these is an orange "Submit" button. Further down are links for "Sign up with Google" and "Sign up with Microsoft". At the bottom, there's a small disclaimer about terms of use and privacy policy, and a "powered by AWS" logo.

4. Complete the form, and then click Sign up.

Note: CloudAlly gives you the choice of numerous AWS data centers available in the dropdown menu "Location." These include locations in Australia, Canada, EU (France, Germany, and Ireland), US, UK, South Africa, and Japan. The ability to choose from a wide range of data centers helps our customers comply with local data sovereignty laws that regulate the physical location and movement of data. In addition, we also offer a "Bring Your Own Storage" (BYOS) option on request. This allows you to backup sensitive data in your own AWS S3 buckets, S3 compatible storage service, Azure, or Google Cloud Platform. Please contact support@cloudally.com for more information.

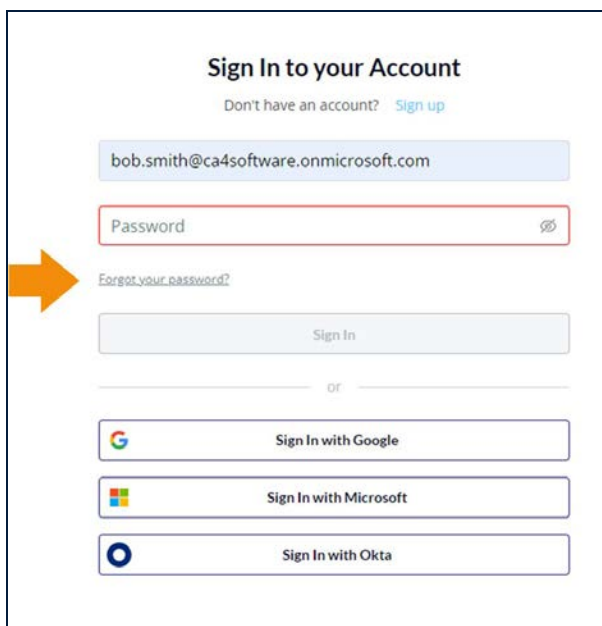

5. Your trial account is created, and an email containing your activation link is sent to your email address. Click on the activation link contained in the email you received to activate your account. If you sign up with Google, Azure, or Okta, the activation link will not be sent to you.
6. Once your account is activated, you are redirected to the CloudAlly *login* page. Enter your email address/password and click **Sign In** to login and access your account.

You can also enable Two-Factor authentication to provide additional security. For more information, see [Managing Your Account](#).

2.3 Resetting Your Password

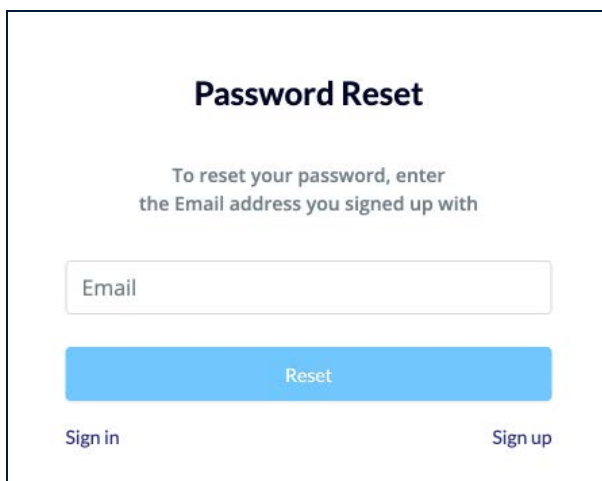

If you do not remember your password, you can easily reset it using the **Password Reset** function.

1. On the sign-in page, click **Forgot your password?** to start the process of resetting your password.

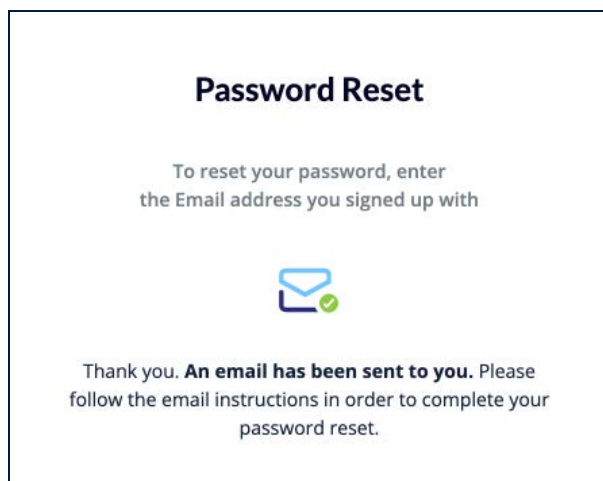

The screenshot shows the 'Sign In to your Account' page. At the top, it says 'Sign In to your Account' with a link 'Don't have an account? Sign up'. Below this is a text input field containing 'bob.smith@ca4software.onmicrosoft.com'. Underneath is a 'Password' input field with a red border and a toggle icon. To the left of the password field is an orange arrow pointing to the 'Forgot your password?' link. Below the password field is a 'Sign In' button. Further down, there are three social login options: 'Sign In with Google', 'Sign In with Microsoft', and 'Sign In with Okta'.

2. The *Password Reset* page will appear.

The screenshot shows the 'Password Reset' page. It has the heading 'Password Reset' and the instruction 'To reset your password, enter the Email address you signed up with'. Below this is an 'Email' input field. Underneath the input field is a blue 'Reset' button. At the bottom of the page, there are two links: 'Sign in' on the left and 'Sign up' on the right.

3. In the Email field, enter the email address that you used to sign up.
4. Click **Reset**, and the *Password Reset* window will appear.

The email will look as follows:

5. In the email, click **Reset CloudAlly Password** to confirm the password reset, and the *Change Your Password* window will appear.

A screenshot of a 'Change Your Password' dialog box. The title 'Change Your Password' is at the top. Below it is the instruction 'Fill-in the new password'. There are two text input fields: 'New Password' and 'Confirm New Password', each with a password icon (a circle with a diagonal line) to its right. Below the input fields is a blue 'Save' button. At the bottom center is a 'Cancel' link.

6. Enter your new password in the **New Password** field and again in the **Confirm New Password** field, and click **Save**.

After resetting the password, you will be directed back to the *Sign In to your Account*.

3 Backing Up Your Box Data

Box lacks the daily backup and archiving process necessary for you to restore data after it has been manually or automatically removed from the recycle bin. CloudAlly's automated daily Box backup ensures that you can both quickly recover data from any point in time as well as export your archives for local storage.

With a few simple clicks, you can activate backups for all or selected users.

3.1 Supported Versions

CloudAlly supports backup and recovery of the following Box versions:

- Business
- Business Plus
- Enterprise
- Enterprise Plus

Note: Box personal versions are not supported.

3.2 Creating a New Backup Task

To create a new backup task:

1. Sign in to your account, or if you are already signed in, click the **Homepage** option in the Navigation Panel.
2. On the Homepage, click + **Add Backup Task**.

The *Activate A New Backup* page is displayed:

3. Click **Box**. The following screen appears.

The screenshot shows a form titled "Enter your admin details" with the Box logo. It contains a required field for "Backup Name" with a placeholder "Enter your backup name". Below the field, a message states "You will be redirected to Box for authentication." At the bottom, there are two buttons: "Cancel" and "Authenticate in Box".

4. Fill in the name of the backup task. This name is used in the notifications and reports, and it can be changed later.
5. Click **Authenticate in Box**. You will be directed to the *Box login* page, where you need to add your user name and password. Click **Authorize**.
6. You will be redirected to the *Backup Settings* page, where you can adjust the settings of the backup.

The screenshot shows the "Backup Settings" page. It includes a sidebar with navigation links: Homepage, Jobs, Recovery, Activity, and Settings. The main content area has a "Backup Settings" title and a note: "The automatic addition/deletion of an account, site, domain, table or drive can affect your monthly or annual billing amount". There are several settings: "Index all data for Search" (checked), "Automatically activate new users" (checked), and "Retain auto-archived backups for" (set to 30 days). On the right, there are dropdown menus for "Backup Datacenter" (set to Europe (Ireland)), "Retention Period" (set to Unlimited), "Backup Frequency" (set to Daily), and "Backup Hour (UTC)" (set to 1:00). At the bottom right, there are "Cancel" and "Save" buttons.

On this page, you can adjust the backup settings and activate backups for the Box users. See the sections below for the detailed procedures.

3.3 Configuring Backup Settings

To access the configuration screen, click the gear-shaped settings icon.

1. You can change the name of the backup task by clicking the pencil icon.
2. The icon next to the Box logo displays whether the application was able to connect to the specified Box account. If the authentication token granted for the application becomes invalid (e.g., it expires due to inactivity because you put the backup task on pause for a long time), the Connected icon changes to Disconnected. To grant the application a new token, click on the icon to open the authentication dialog, and repeat the authentication process.
3. By default, the “Index all data for Search” option is selected, which enables CloudAlly to provide you with its granular search and restore functionality. In the process, your data is temporarily decrypted for a brief period of time, and then re-encrypted once the index is built. If this goes against your company policy and you would like to disable automatic indexing, please contact support@cloudally.com.
4. The Automatically activate new users option instructs the system to detect new users, and activate them automatically.
5. Backups are automatically archived when an entire site is deleted. The **Retain auto-archived backups** option allows you to retain them for a specified number of days, after which they will be deleted. Otherwise, the backups will be retained indefinitely.

Note: The **Backup Data Center** and **Retention Period** fields are “display only,” and their values can’t be changed here.

6. The **Backup Data Center** field displays the Data Center location you selected when you signed up with your registration.

The **Retention Period** field displays whether a retention period has been set up. By default, we provide unlimited retention of your daily backups for as long as you maintain your account subscription. You can override this default and specify a retention period in days, months, or years by contacting CloudAlly support. Backups older than the retention period specified will be automatically deleted.

Note: Your backup storage location cannot be changed once it's been set during the account setup process. Contact CloudAlly support if you need to move backups to a different geographic region, or if you'd like more information on our "Bring Your Own Storage" (BYOS) option.

7. Backup Frequency and Backup Hour

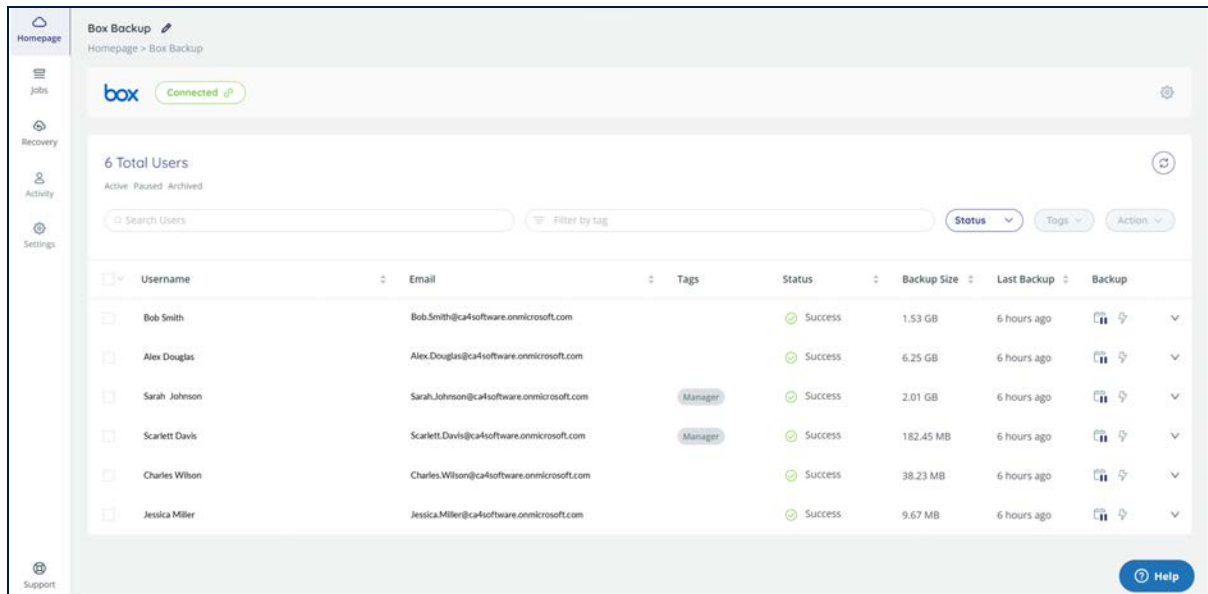

- a. Click the drop-down list adjacent to the **Backup Frequency** field and select how often you would like the backups to occur. The available options include:
 - i. Daily
 - ii. Every 3 days
 - iii. Weekly
- b. Click the drop-down list adjacent to the **Backup Hour (UTC)** field and select the backup hour. Click **Save**.

Note: Adding more frequent backups is possible via a support request.

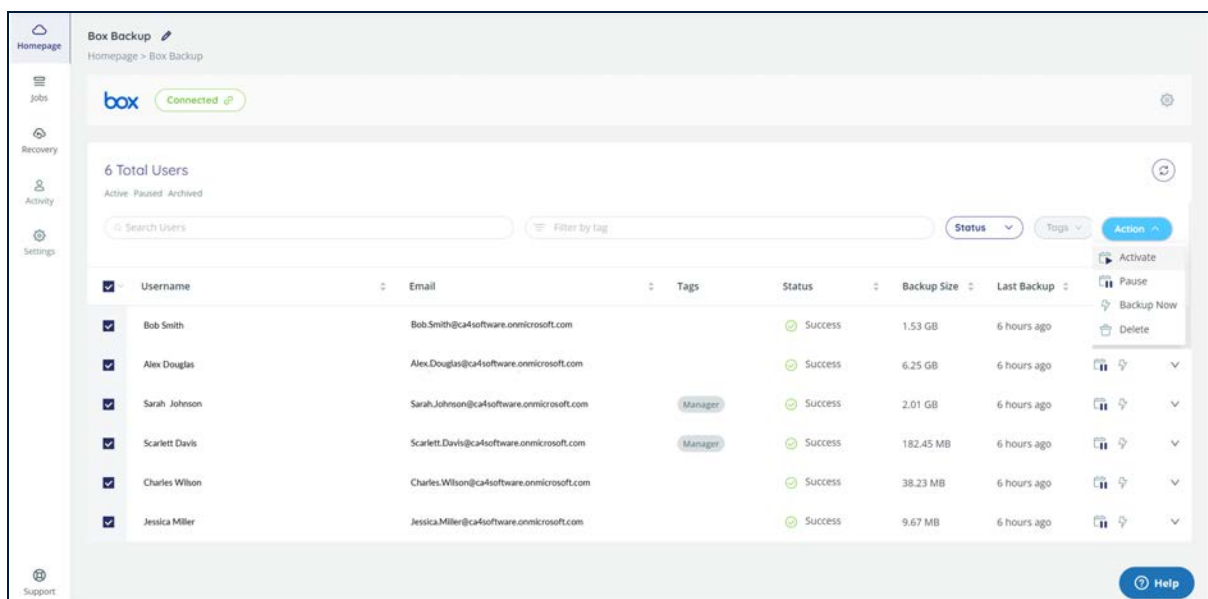

3.4 Activating Your Backups

Once you have configured your backup settings, you need to **Activate** them, in order for them to begin backing up your data.

1. Scroll down to the list of users.

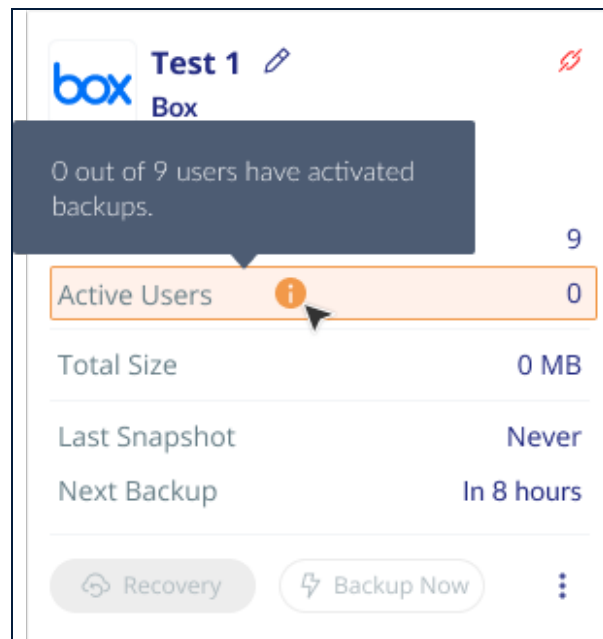

2. Select one or more user(s).
3. Click **Action > Activate**. The status of your backups will now be "Scheduled." This means that they will be backed up at the time that you selected on the Configuration screen.

4. Alternatively, if you prefer to perform an immediate, on-demand backup, click **Action > Backup Now**.

If you forget to activate any of your backups, there will be an indicator on the Homepage that reminds you:

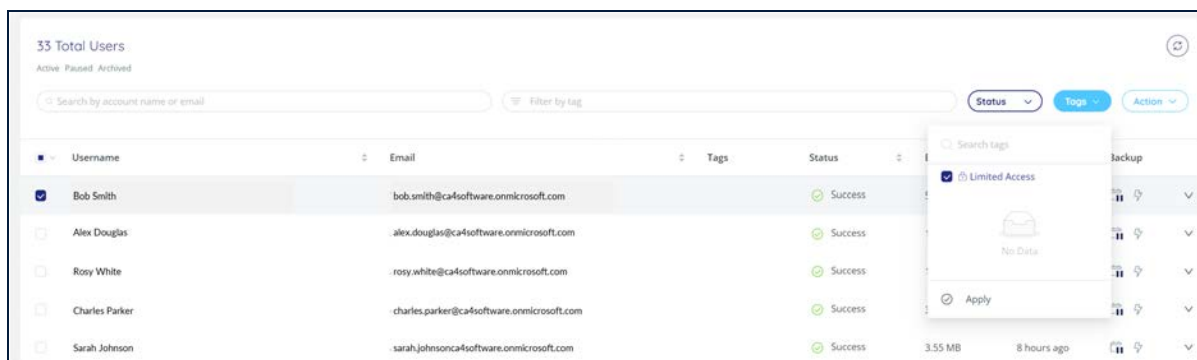

3.5 Securing Your Backups

By default, all primary and secondary users can preview, browse, and recover any backed up data. This could be a security risk if sensitive information is contained in the backup snapshots.

Primary users can limit access to one or more sites, drives, accounts, or users so that only they will be able to see, restore and export this data.

1. Primary user: From the *Homepage*, click the name of the service whose data you would like to restrict.
2. Click one or more users.
3. Click **Tags**, and check the **Limited Access** tag.

4. Click **Apply**. You will be asked to confirm:

5. The tag will now appear in the **Tags** column as follows.

This will prevent secondary users from browsing and recovering the data.

To remove the tag, the primary user should simply reverse the process - un-check the Limited Access tag, and re-apply.

3.6 Removing a Backup

You can delete individual user backups or the entire backup service from your account if you do not want to use them further. The following sections guide you through the process of removing backup services and individual user backups.

3.6.1 Removing a Backup Task

To remove a backup task for a service, on the *Homepage*, click Menu > **Delete Backup** adjacent to the backup task you want to remove.

The **Confirm Delete** pop-up window is displayed with a warning message.

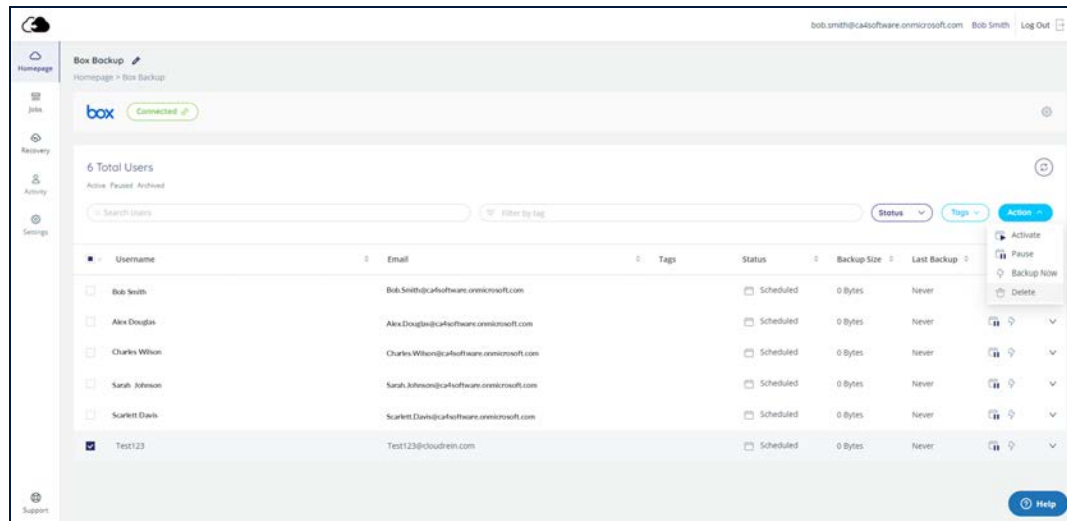

Click **Delete**. The selected backup service is removed from your account.

To prevent mistaken deletions, there is a grace period of 7 days after your backup is deleted.

3.6.2 Removing an Individual user

To remove an individual user:

1. Click the backup task from which you want to remove the user. The backup task settings page is displayed.
2. Add a check next to the user that you want to remove. Click **Delete** in the **Actions** menu.

3. A pop-up window is displayed with a list of users selected for removal. Click **Delete**. The selected users are removed from your account.

To prevent mistaken deletions, there is a grace period of 7 days after your backup is deleted.

3.7 Usage Reports

In order to provide greater clarity to you about which users CloudAlly is backing up, you can export a CSV file that lists all of the entities that were backed up, including the status of each entity (active, inactive, or archived).

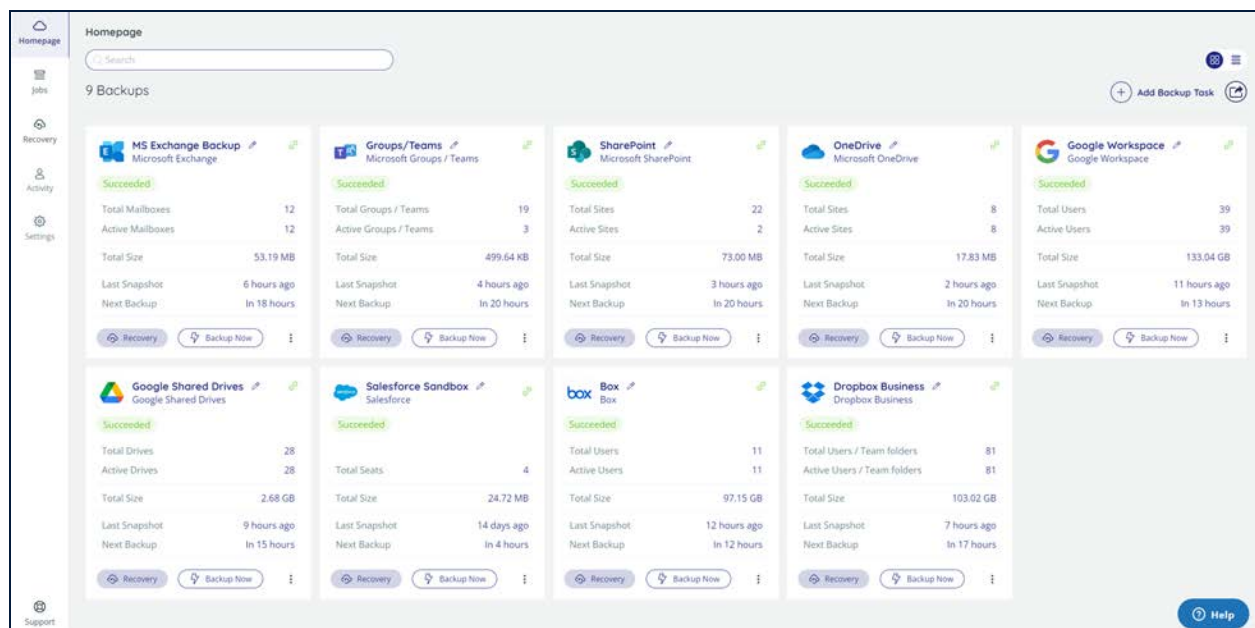

To export a usage report, click the **Export** button, next to **Add Backup Task**. The report will be sent to you via email.

3.8 Modifying the Settings of an Existing Backup

To modify an existing backup task:

1. Click the *Homepage* option from the Navigation Panel. The *Homepage* screen appears.

2. Click the Box icon from the list or enter a keyword in the Search field to find a specific task. The *Box Backup* page is displayed.
3. Click **Settings** on the top-right section of the screen to see the backup settings.

From here, it is possible to modify the fields described in [Configuring Backup Settings](#).

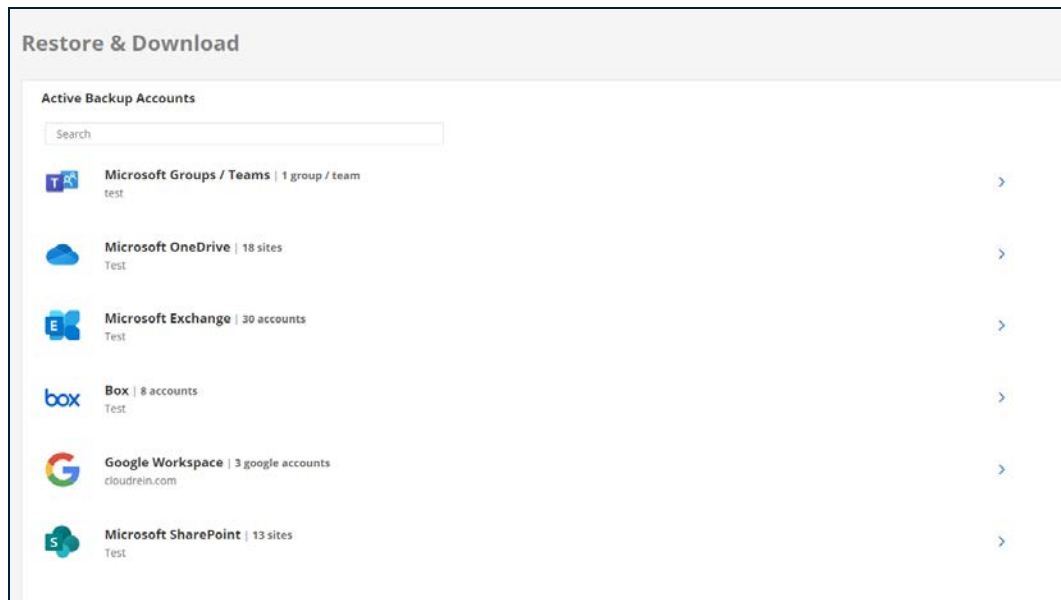

4 Recovering Your Backed Up Data

4.1 Using the Recovery Menu

The Recovery Menu provides you with options at a fine granularity for selecting which user to restore or export.

To recover your backed up data:

1. Click Recovery from the Navigation Panel. The *Restore & Download* page is displayed with all your active-backup account details.

2. Click the Box backup task from which you wish to recover the data.
3. The *Restore or Download Box* page is displayed.

This page displays all your Box domains backed up with the details such as user name, First Backup date, Last Backup date, and available Actions. Your backed-up data is ready for download, from this page.

- You can filter the list using the following options:
 - Filter by statuses such as All, Active, In Process, Not Active, Scheduled, Paused, Backed-up in another task, or Archived, from the drop-down list.
 - Or: search by part or all of the user name.
- Click the arrow icon at the end of the line of the user which you want to restore or export (download).

The *Restore or download Box* page is displayed.

Restore or download Box Backup task: Box Backup

Restore & Download > Box Backup > agaliev@cloudally.com

Please select your preferred choice for restore

☒ **Via Snapshot** ▾

A snapshot is a copy of your online application data taken at a specific date and time. Use this option to recover all of your data, or drill down into the snapshot to recover a particular item.

Data changed from

Select date ▾

To

Select date ▾

☐ **Via Item Search** ▲

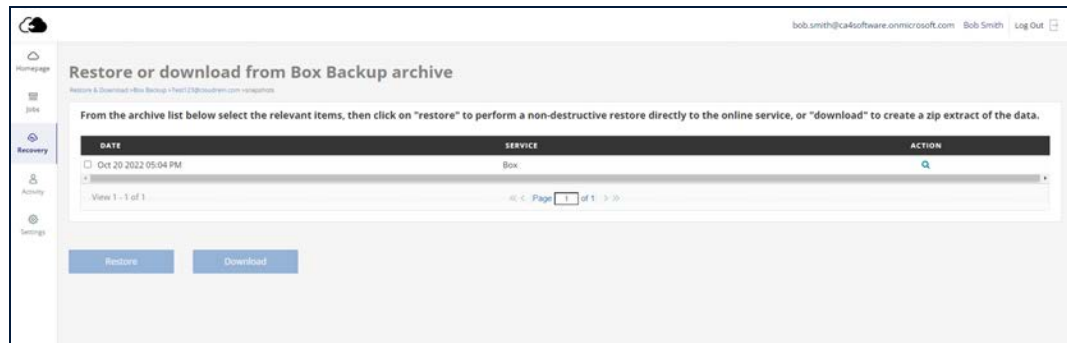

Use this option to search all the backup snapshots of this service for a particular keyword or name. To search for an exact phrase, including an email address, use double-quotes (""). For example: "user@company.com" or "Important update".

Continue

- Select the radio button for your preferred restore method:
 - Via Snapshot (see [Via Snapshot](#))
 - Via Item Search (see [Via Item Search](#))

4.1.1 Restore or Download Via Snapshot

1. Enter the date range that you would like to restore using the *Data changed from* and *To* fields, and press **Continue**.
2. The list of backup snapshots within that date range is displayed. Select the snapshot you want to recover.

3. Alternatively, you can click the magnifying glass in the Action column to drill down into the snapshot and view the structure of the backed up data. There you can select one or more items for recovery.
4. Once you select a snapshot (if you wish to recover all the data in the backup), or one or more items (if you wish to recover only selected items), the **Restore** and **Download** buttons become available.

4.1.1.1 Restore

If you click **Restore**, the restore confirmation window appears, asking you about the following:

- Do you want to restore to another folder or account? If so, provide the new location information.
- Do you want to perform a non-destructive backup, where the restored files are added to a new folder? The folder name indicates that they have been restored.
- Or do you want to perform an in-place restore? There are two options:
 - **Replace:** The restored content will be located in the same folder as the existing content, not in a separate folder when you choose non-destructive restore. Deleted items and folders will be restored from the snapshot. Existing items will be overwritten with the snapshot version.
Use this option: to restore or repair deleted / modified items
 - **Bypass:** The restored content will be located in the same folder as the existing content. Deleted items and folders will be restored from the snapshot. Existing items will be skipped.
Use this option: to restore deleted data.

Please confirm the restore request

You are about to restore items from the archive of

Bob.smith@CA4software.onmicrosoft.com

Restore to

Bob.smith@CA4software.onmicrosoft.com

*You can restore the data to a different account.

Please select your restore method:

☒ Non-destructive: Data will be restored to a folder.

In-place restore to the live site is also available, please select how you want to handle existing data:

☐ Replace: Restore will overwrite existing live data.

☐ Bypass: Existing data will be bypassed and not restored.

A confirmation Email will be sent to you upon completion.

Cancel

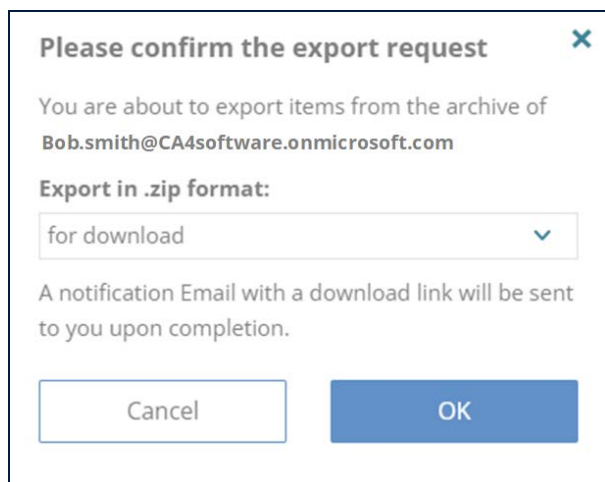

OK

The backup data that you selected will be restored to the location that you specified. When the recovery process is complete, a summary will be sent to your email.

You can also check the Jobs page to see the progress of your task. See ["Tracking Recovery Tasks on the Jobs Page."](#)

4.1.1.2 Export/Download

1. If you click **Download**, the following confirmation window appears.

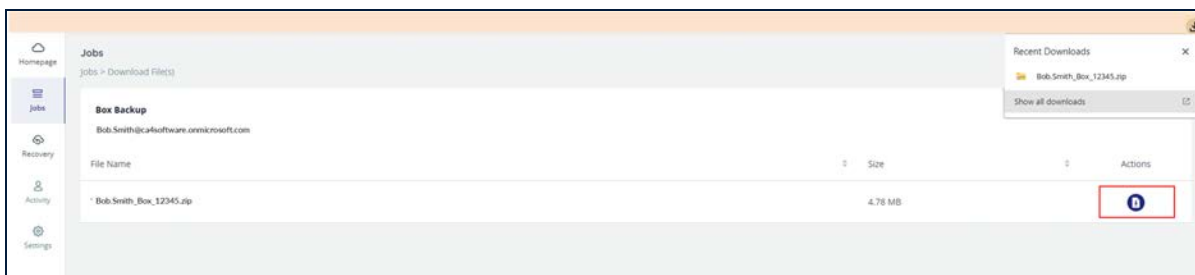

2. Click the drop-down list and select one of the following storage locations:

3. If you select options other than “for download,” you may be asked for additional credentials and/or access tokens for the selected storage locations.
4. Click **OK**. The download instructions are sent to your registered email address. The download link is only valid for 72 hours.
5. Or, you can check the *Jobs* page. (See ["Tracking Recovery Tasks on the Jobs Page."](#)) When the task is completed, the **Download Results** button will be active.

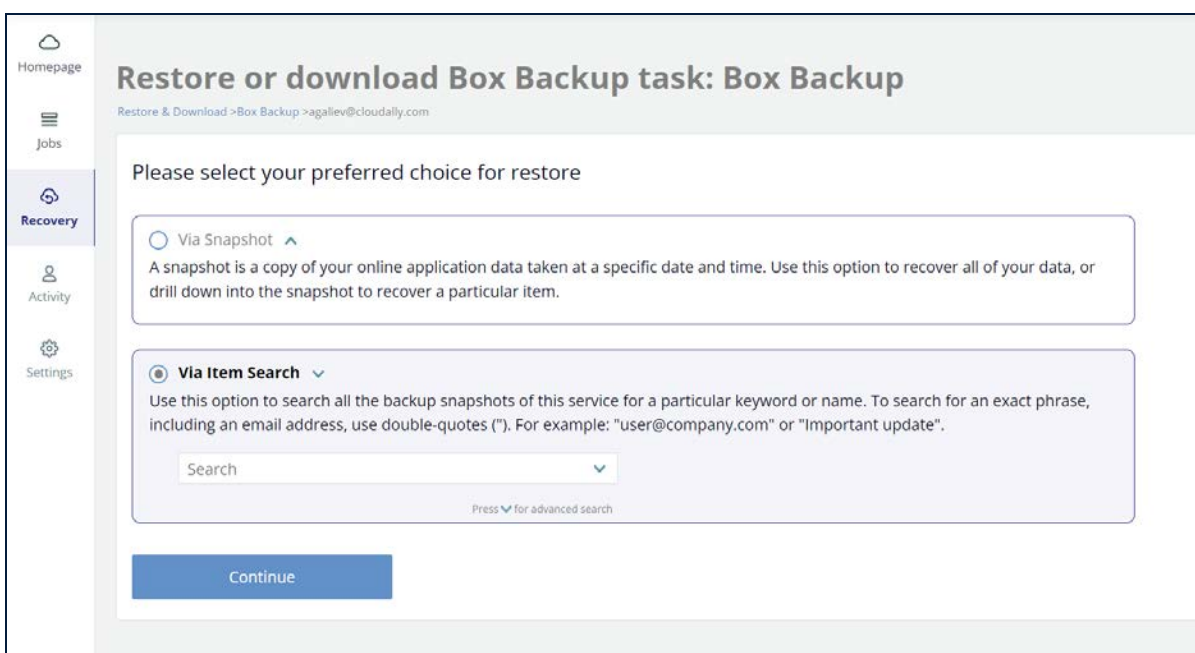

- Click **Download Results**, and a page will open, where you can access your backup file.

4.1.2 Restore or Download Via Item Search

- Select **Via Item Search**, and enter a word or phrase to search on.
- Or, click the arrow next to the search bar, and enter search criterion in any of the Advanced fields: Author, file name or date.

- Click **Continue**. The *Restore or download* page is displayed, showing the search results with details such as Type, Name and Date. The details columns are different for different types of restored items.

4. Select items you would like to restore or download. When at least one item is selected, **Restore** and **Download** become available.
5. Follow the instructions in the [Restore](#) or [Export/Download](#) sections to complete the recovery process.

4.2 Tracking Recovery Tasks on the Jobs Page

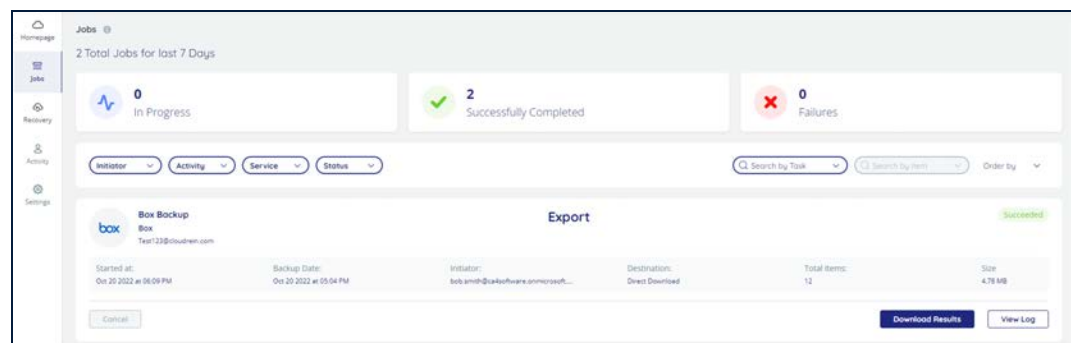

The Jobs page provides you with both high-level and drill-down views of your restore and export jobs over the last seven days.

Note: To see the status of your Backups, click the name of the backup from the *Homepage*.

From the Navigation pane, click **Jobs**.

4.2.1 High-Level Summary

- The top portion of the Jobs dashboard summarizes how many of your jobs are in progress, how many have successfully completed, and how many have partially succeeded or failed over the past 7 days.

To see a list of jobs that have any of these 3 statuses, click on the status, and your results will be filtered accordingly

4.2.2 Filtering

The next section allows you to filter by numerous criteria:

- **Initiator:** Who initiated the backup / restore?
- **Activity:** Filter by restores or exports.
- **Service:** Filter by one of the following services, such as:
 - Google Workspace
 - Google Shared Drives
 - Salesforce
 - Box
 - Dropbox
 - Google Account
- **Status:** Filter by one of the following:
 - In progress
 - Succeeded
 - Partially succeeded
 - Failed
 - Pending
 - Canceled
- **Search by Task:** Filter by a task, such as:
 - Box
 - Dropbox
 - Google Workspace
 - Salesforce

If you choose to filter using a particular service, then you can focus on a specific item in the search bar. You can also order by:

- Latest First
- Oldest First

4.2.3 Description of Each Job

- The rest of the screen provides a detailed description of each individual job that you ran.
 - **Type of Job:** Export, or Restore – this appears as a large title within each job description.
 - **Name, Service, and Account** of the job.
 - Start date, backup date, initiator, destination, total items backed up or restored, and the size of the file(s).
- **Cancel** enables you to stop a job that is in progress.
- **Download Results** enables you to download a zip file with your recovery data.
- **View Log** redirects you to the System Activity page, which displays your account activity with details such as Activity, Date and Time, Service, Sub-Service, Status, Task Name, and Item.

The screenshot shows the 'Activity' page in the Box interface. It features a sidebar with navigation options: Homepage, Jobs, Recovery, Activity (selected), and Settings. The main content area is titled 'Activity' and 'Activity > System activity'. It includes filters for date range (20 Oct 2022 - 20 Oct 2022), activity type (Activity (1)), service (Service), and status (Status). There are also search bars for 'Box Backup' and 'Test123@cloudre'. A 'Clear Filters' button is present. Below the filters is a table with the following data:

| Activity | Date and Time | Service | Sub-Service | Status | Task Name | Item |
|----------|----------------------|---------|-------------|-----------|------------------------------------|-------------------------------------|
| Export | Oct 20 2022 06:09 PM | box | - | Succeeded | Box Backup / bob.smith@calsoft.com | bob.smith@calsoft.com:microsoft.com |

This page enables you to filter and search the list of backup tasks, export the list as a CSV file, and view more details on any backup task.

The latter can be achieved by clicking the information icon in the Activity column. The Info pop-up displays the backup execution time, the size of the stored data, and the number of entities, and the summary of the backup execution.

The screenshot shows the Box Activity page with the following elements:

- Left Navigation:** Homepage, Jobs, Recovery, Activity (selected), Settings.
- Header:** Activity > System activity
- Filters:** 20 Oct 2022 - 20 Oct 2022, Activity (1), Service, Status.
- Export Bar:** Export, 20 Oct 2022 - 20 Oct 2022, Box Backup, Bob.smith@ca4soft...com
- Activity Table:**

| Activ | Export | Service | Sub Service |
|-------|---|---------|-------------|
| | <div>Snapshot Date: Oct 20 2022 05:04 PM Number of Records: 12 Export Destination: Direct Download Initiator: bob.smith@ca4software.onmicrosoft.com</div> | box | - |

5 Filtering and Viewing Drill-Down Details

This section explains the process of finding the exact backup data you are looking for using filtering.

5.1 Filtering by user

1. Click the *Homepage* option from the Navigation Panel. The *Homepage* screen appears.

2. Click the Box icon from the list or enter a keyword in the Search field to find a specific task. The *Box Backup* page is displayed.
3. The *Box Backup* page displays all the Box users available for the administrator account you are using. The page displays the details such as User Name, Email, Status, Backup Size, Last Backup Date, and available Actions. It also provides the means to filter the users and control the associated backup tasks.

5.1.1 Filtering Using Names or Statuses

You can filter accounts using the following options:

- Enter a search phrase in the *Search by* field to view all the users with the entered keyword.
- Filter by statuses such as Not Active, Scheduled, Success, In Process, Failed, Paused, Archived, or Partial.

5.1.2 Filtering Using Tags

CloudAlly provides you with the means to add extra metadata to your backed up data in the form of "tags." For example, you might want to denote all users that belong to Managers, or all those that belong to the Sales Team.

You can use tags to quickly filter your list of users.

The **Tags** option is used to search for existing tags. By default, it is not active. To activate **Tags**:

1. Select at least one user.
2. Click **Tags**, and the following screen appears.

3. To search your existing tags, enter a tag name in the **Search tags** field.

5.1.3 Creating a New Tag

To create a new tag:

1. Click **Create New Tag**. A pop-up appears where you can enter a new tag name.

A dialog box titled "New Tag" with a text input field and two buttons: "Cancel" and "Create".

New Tag

Please enter a new tag name

Cancel Create

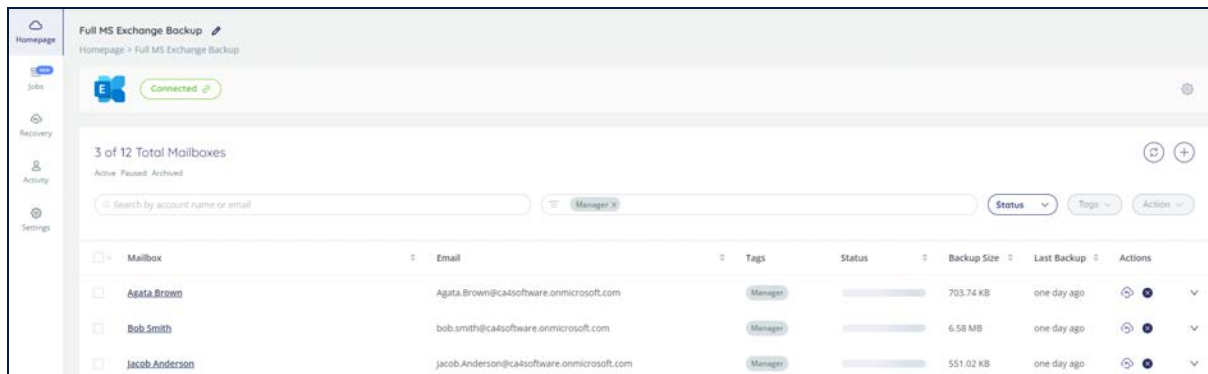

2. Enter a new tag name and click **Create**.

To apply tags to your users:

1. Select at least one user.
2. Click **Tag**.
3. Choose the desired tag for your user s.
4. Click **Apply**.

5.1.4 Filtering by Tag

In the **Filter by tag** field, enter a tag name. The accounts, teams or sites with those tags will appear.

5.1.5 Actions

To perform actions on a user, select at least one of them on the list, and the **Action** button will be enabled. Click **Action** to see the following drop-down menu:

- **Activate** enables backup in all the selected users.
- **Pause** halts the backup procedures on the selected users.
- **Backup now** starts the backup immediately. The backup in this case starts as soon as a backup processing machine is available, which may take several minutes.
- **Delete** removes the backup task and backup data for the selected users.

5.2 Viewing Backup Statistics with the Drill-down Feature

Select the desired user, and click the downward-facing arrow at the end of the row. This option enables you to drill down to the backup history dashboard.

When you drill down, you can find a diagram describing past backups, and a brief summary of the backup outcomes.

The diagram depicts the number of items backed up each day. By hovering your mouse over a column in the diagram, you can see the number of items backed up in each service. This number includes all new and changed items, so it may be greater than the total number of items in the backup. You can select the date range of the chart with the sliders underneath it. The maximum range displayed is 30 days.

The summary tiles below the chart provide at-a-glance information about the backup: for each sub-service, they display the total number of items in the backup, the date of the last backup, and the outcome.

6 Managing Your Account

This section guides you through the processes of managing your Account activity, account settings, password, setting up two-factor authentication, and managing users.

6.1 Viewing Account Activity

The Activity menu enables you to view your account activity, including System Activity and Security Audit. Click Activity on the navigation pane.

6.1.1 System Activity

Click **System Activity**.

The **System Activity** page displays your account activity, with details such as Activity, Date and Time, Service, Sub-Service, Status, Task Name, and Item.

A screenshot of the 'System Activity' page in the Box interface. The page shows a table of activities with columns for Activity, Date and Time, Service, Sub Service, Status, Task Name, and Item. The table lists various backup and export tasks, mostly successful, with one failed backup task. The left sidebar shows the 'Activity' link is selected. At the top of the table, there are filters for Start date, End date, Activity, Service, and Status, along with search bars for Task name and Items. A 'Help' button is visible in the bottom right corner of the table area.

| Activity | Date and Time | Service | Sub Service | Status | Task Name | Item |
|----------|----------------------|-----------|-------------|-----------|--|--|
| Export | Jul 12 2022 04:08 PM | Calendars | | Succeeded | Full MS Exchange Backup / bob.smith@ca... | bob.smith@ca4software.onmicrosoft.com |

| Export | Jul 11 2022 01:00 PM | Channels | | Succeeded | Full Teams Backup / AltaroRestored_Lind... | AltaroRestored_Linda_Fuller_2021_08_31_05_36 |
| Restore | Jul 11 2022 01:00 PM | | | Succeeded | One Drive / cloudally1-my.sharepoint.co... | .../Zsepo_kazandev_pro |
| Backup | Jul 11 2022 05:04 AM | Calendars | | Failed | Full MS Exchange Backup | Mila.Scott@ca4software.onmicrosoft.com |
| Backup | Jul 6 2022 05:06 AM | Notes | | Succeeded | Full MS Exchange Backup | Jacob.Anderson@ca4software.onmicrosoft.com |
| Backup | Jul 6 2022 05:06 AM | Notes | | Succeeded | Full MS Exchange Backup | Agata.Brown@ca4software.onmicrosoft.com |
| Backup | Jul 6 2022 05:06 AM | Notes | | Succeeded | Full MS Exchange Backup | Alex.Duglas@ca4software.onmicrosoft.com |
| Backup | Jul 6 2022 05:06 AM | Notes | | Succeeded | Full MS Exchange Backup | Sarah.Johnson@ca4software.onmicrosoft.com |
| Backup | Jul 6 2022 05:06 AM | Notes | | Succeeded | Full MS Exchange Backup | Jessica.Miller@ca4software.onmicrosoft.com |
| Backup | Jul 6 2022 05:06 AM | Notes | | Succeeded | Full MS Exchange Backup | Charles.Wilson@ca4software.onmicrosoft.com |

This page enables you to filter and search the list of backup tasks, export the list as a CSV file, and view more details on any backup task. The latter can be achieved by clicking the Info icon. The Info pop-up displays the backup execution time, the size of the stored data, and the number of entities, and the summary of the backup execution:

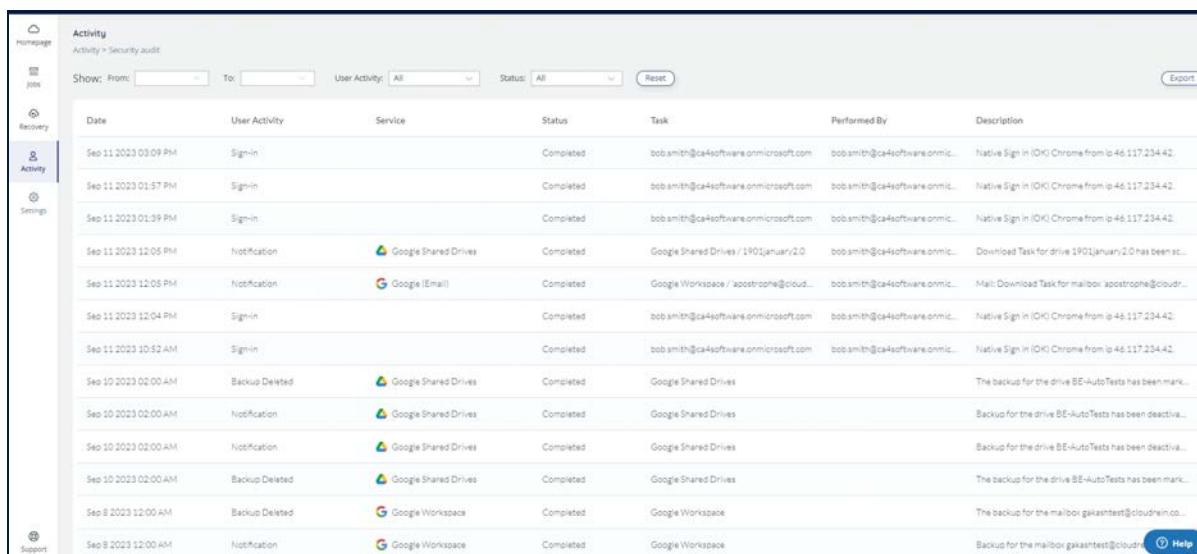

Note: Administrators can grant users permission to see the *System Activity* page by clicking **Settings > User Management**, and checking "View Account Activity."

6.1.2 Security Audit

The *Security Audit* page provides information about all the security-related actions that have happened in your account. The user activity that is displayed includes:

- Backup deleted
- User deactivated
- Settings changed
- Sign-in success or failure
- Permissions changed
- Notifications.

The page includes the date of the event, the type of activity, the service involved, the status of the activity, the account performing the activity, and the description.

The screenshot shows the 'Activity' page in the Box interface, specifically the 'Security audit' section. The page has a sidebar with navigation options: Homepage, Jobs, Recovery, Activity (selected), and Settings. The main content area displays a table of user activities with filters for 'Show: From', 'To', 'User Activity', and 'Status'. The table columns are: Date, User Activity, Service, Status, Task, Performed By, and Description. The table lists various activities such as sign-ins, notifications, and backup deletions for different services like Google Shared Drives and Google Workspace.

| Date | User Activity | Service | Status | Task | Performed By | Description |
|----------------------|----------------|----------------------|-----------|---------------------------------------|--------------------------------|--|

The Security audit table can be exported as a CSV file by clicking **Export**.

Note: Administrators can grant users permission to see the *Security Audit* page by clicking **Settings > User Management**, and checking "View Security Audit Page."

6.2 Managing Your Account Settings

The *Settings* page provides you with tools to control both your account and the accounts of users whose external credentials are linked to your account. The Settings section consists of the following sub-sections:

- Account
- User Management
- Security
- Notifications

You can find more details on each of the *Settings* pages below.

6.2.1 Account Settings

This page allows you to change the name of your account and the email address. You can only change the Data Center Location by contacting CloudAlly support. Finally, this page also allows you to terminate your account.

To update or change your account details:

1. From the Navigation Panel, click **Settings** and then click **Account**. The *Settings > Account* page is displayed.

You can update the Account Name and/or Email.

Note: If you change your email address, you will receive an email sent to your new address for confirmation. The new address will not become active until it is confirmed.

Click **SAVE**. The following screen will appear. If you did not receive the confirmation email, click **Resend Email Confirmation**

The screenshot shows the 'Settings' page with the 'Account' tab selected. The 'Email' field is highlighted, showing a 'New Email - Waiting for Approval' status. A note indicates that a confirmation email was sent to the new address. The 'Data Center Location' is set to 'US East (Northern Virginia)'. The 'Save' button is visible at the bottom right.

6.2.2 Canceling Your Subscription

To cancel your subscription:

1. Check the box for "I approve the removal of my data from CloudAlly" field and click **REMOVE ACCOUNT**.
2. The *Are you sure?* pop-up window is displayed with a confirmation request.
3. Click **YES** to confirm the cancellation.

The screenshot shows a confirmation pop-up window titled 'Are you sure?'. It contains a checkbox labeled 'I approve the removal of my data from CloudAlly'. At the bottom, there are two buttons: 'YES' and 'NO'.

Note: To prevent mistaken deletions, there is a grace period of 7 days after your account is terminated. After the grace period, if your account is not reactivated, all data from all your backups will be deleted.

6.3 User Management

The page provides tools for fine-level control of the permissions and access levels of your users.

The screenshot shows the 'Settings > User Management' page. It includes a header with the title 'Settings' and breadcrumb 'Settings > User Management'. Below this, a message states: 'The following external credentials are currently linked to your CloudAlly account. You can remove the credentials anytime if you prefer to use only your CloudAlly sign-in credentials.' To the right of this message is a button with a plus icon and the text 'Add new user'. Below the message is a table with three columns: 'Email', 'Type', and '2FA Authentication'. The table contains three rows of user data. The first row has email 'm.steward@cloudally.com', type 'Email', and a 2FA icon. The second row has email 'j_armstrong@cloudally.com', type 'Email', a 2FA icon, a pencil icon, and a minus icon. The third row has email 'kristen_hall@cloudally.com', type 'Email', a 2FA icon, a pencil icon, and a minus icon. At the bottom of the table, it says 'Page 1 of 1' and 'Showing 1-3 of 3'.

| Email | Type | 2FA Authentication |
|----------------------------|-------|--------------------|
| m.steward@cloudally.com | Email | |
| j_armstrong@cloudally.com | Email | |
| kristen_hall@cloudally.com | Email | |

Page 1 of 1 Showing 1-3 of 3

Click **+ Add new user** to create a new user and start the configuration procedure for that user, or the pencil icon to edit an existing user's settings. The settings include the operations permitted to the user and the list of available services:

Note: Selecting the role "Administrator" enables permissions to all services and operations.

To save changes, scroll to the bottom of the page and click **SAVE**.

You will be returned to the Settings page. To complete the process, the user must confirm their email address using the link sent via email. This is a security measure, which ensures that the user's email address is valid.

The link is valid for 24 hours. If they did not confirm within this time period, or did not receive the confirmation email, click **Resend Email Confirmation**.

| Type | 2FA Authentication |
|-------|---|
| Email | |
| Email | |
| Email | Resend Email Confirmation |

6.4 Security Settings

The *Security Settings* page enables you to:

Personal Password Policies

Change your CloudAlly account password **Change password**

You can also use Two-Factor Authentication **Activate 2FA**

- Update your password
- Set up two-factor authentication

You can also enforce certain security policies for your users' accounts.

Enforce The Following Password Policies On All Users

☒ Enforce Two-Factor Authentication on all users ⓘ

Password Expiration: ☒ Password expires after (days):

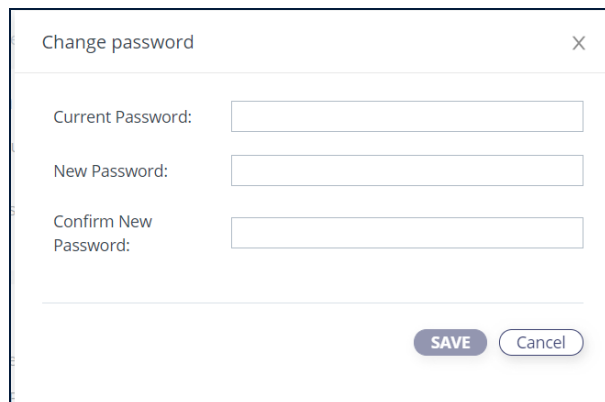

Cancel Save

- With the **Enforce Two-Factor Authentication** option, you can make two-factor authentication mandatory for all the users in your account.
- By setting the **Password Expiration**, you can enable the password expiration option for all your users – you will be also be asked for the number of days before the users' passwords expire.

6.4.1 Changing Your Password for Credential-Based Authorization

You can change your existing account password by performing the following procedure:

1. From the **Settings > Security** page, in the Personal Password Policies panel, click **Change Password**.
2. The *Change password* pop-up is displayed.

A modal dialog box titled "Change password" with a close button (X) in the top right corner. It contains three input fields: "Current Password:", "New Password:", and "Confirm New Password:". At the bottom right, there are two buttons: "SAVE" and "Cancel".

Change password X

Current Password:

New Password:

Confirm New Password:

SAVE Cancel

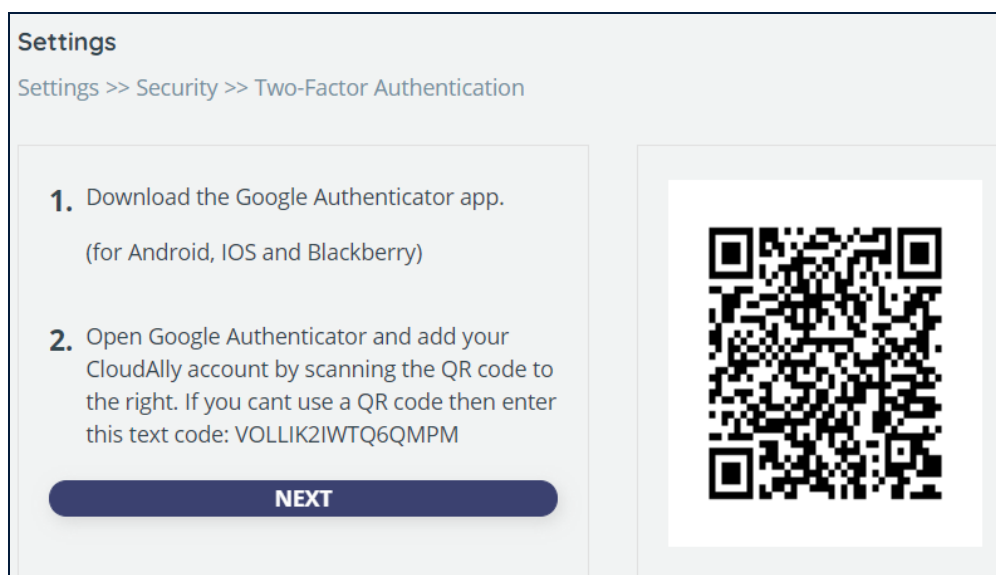

3. Enter the current password in the *Current Password* field.
4. Enter the new password in the *New Password* field.
5. Re-enter the new password in the *Confirm New Password* field.
6. Click **SAVE**. You can now use this password to access your account.

6.4.2 Two-Factor Authentication

Two-factor authentication provides additional security to your account and your backup data.

To enable two-factor authentication:

1. Click **Activate 2FA**. The Two-Factor Authentication page is displayed.

A screenshot of the "Settings" page for Two-Factor Authentication. The breadcrumb trail is "Settings >> Security >> Two-Factor Authentication". The page contains two numbered steps: 1. Download the Google Authenticator app. (for Android, IOS and Blackberry) and 2. Open Google Authenticator and add your CloudAlly account by scanning the QR code to the right. If you cant use a QR code then enter this text code: VOLLIK2IWTQ6QMPPM. A large QR code is displayed on the right. At the bottom left, there is a "NEXT" button.

Settings

Settings >> Security >> Two-Factor Authentication

1. Download the Google Authenticator app.
(for Android, IOS and Blackberry)
2. Open Google Authenticator and add your CloudAlly account by scanning the QR code to the right. If you cant use a QR code then enter this text code: VOLLIK2IWTQ6QMPPM

NEXT

2. Download an Authenticator app, depending on your platform.
3. Open the Authenticator app and add your account by scanning the QR code provided in the web application.
4. If you cannot use a QR code, then enter the text code provided in the web application.
5. A six-digit code is generated.
6. Click **NEXT**.
7. Enter the 6-digit code that the application generated.
8. Click **ENABLE** to complete the process of activating the Two-factor authentication.

From now on, every time you sign in to your Account, you are asked to enter a 6-digit code from your authentication app, after you click **SIGN IN**. Click **VERIFY** to verify the code and access the application.

6.4.3 SAML

The Security Assertion Markup Language (SAML) is an open federation standard that allows an identity provider (IdP) to authenticate users and then pass an authentication token to another application known as a service provider (SP).

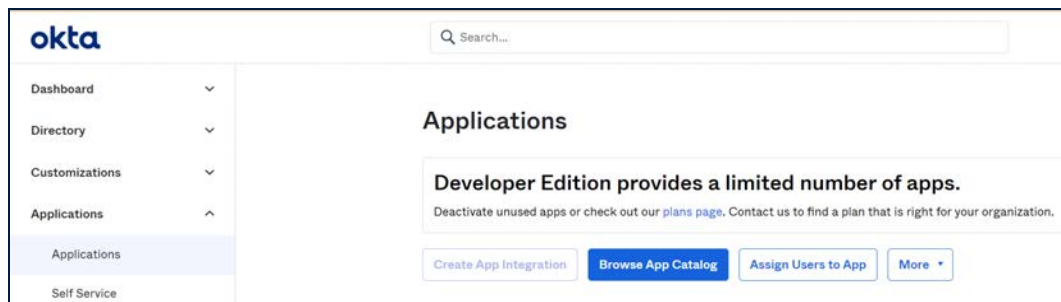

CloudAlly supports Okta as its SAML provider.

There are two steps to setting up Okta so that you can use it to log in to CloudAlly:

- Setting up CloudAlly in the Okta Application
- Setting up Okta in the CloudAlly application

6.4.3.1 Setting up CloudAlly in the Okta Application

- In the Okta application, click **Applications > Applications > Browse App Catalog**.

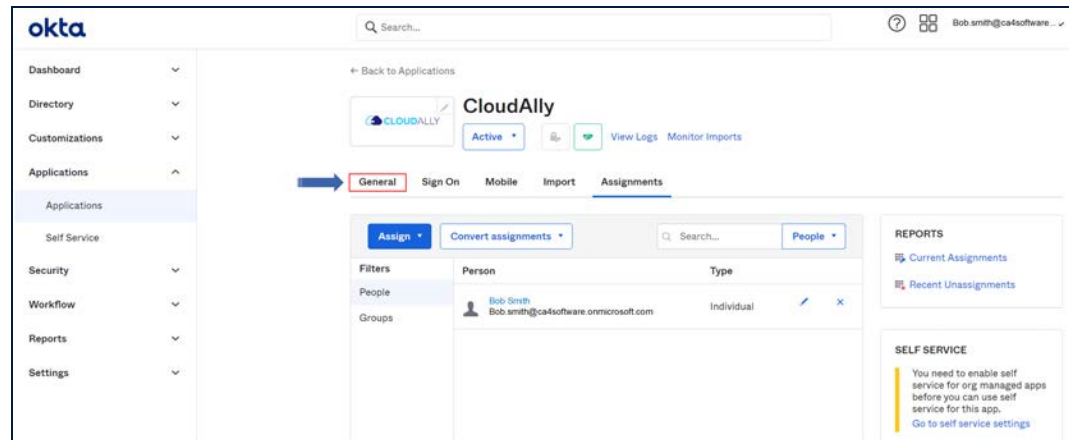

- In the search bar, enter CloudAlly.

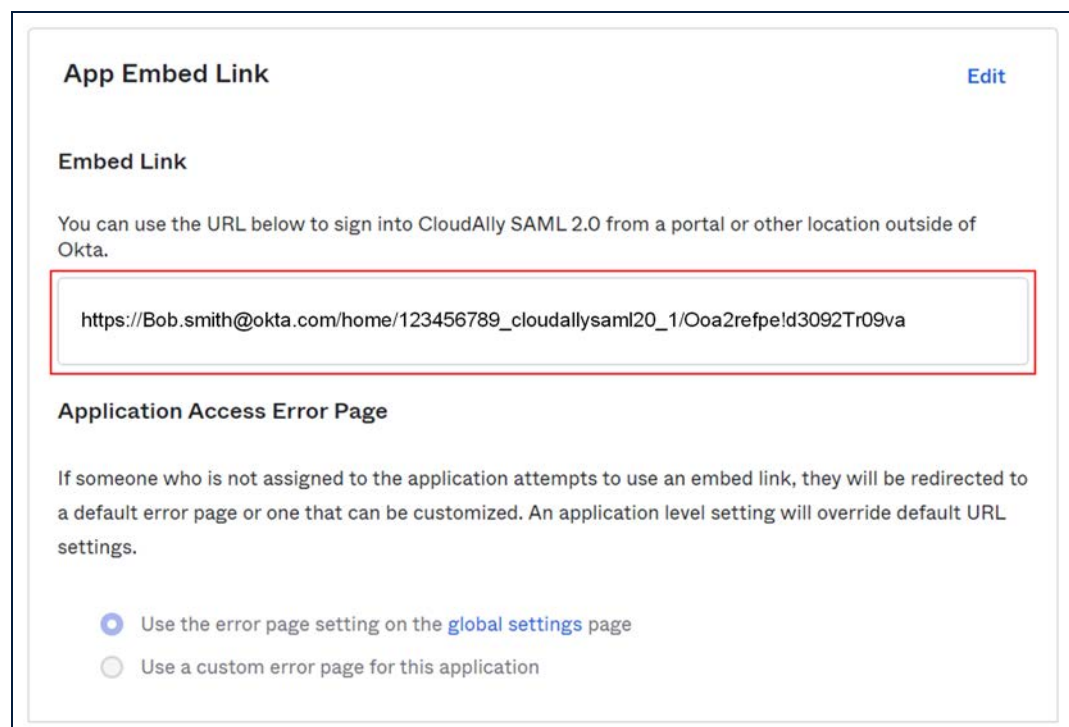

- Click the arrow next to CloudAlly SAML 2.0, and **Assign to Users** or **Assign to Groups**.

- Click CloudAlly SAML 2.0, and on the next page, click the **General** tab.

- Scroll down until you see the **App Embed Link** section. Copy the URL that is displayed - you will need this to set up Okta in the CloudAlly app.

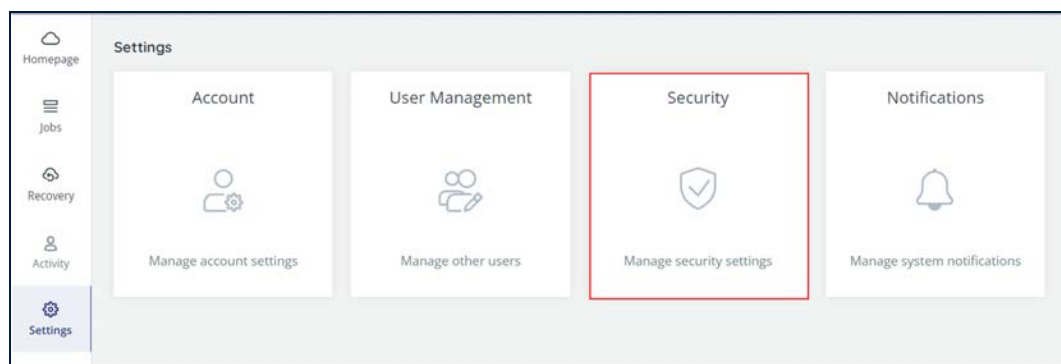

6.4.3.2 Setting Up Okta in the CloudAlly Application

1. From the Homepage, click **Settings** in the Navigation panel.

2. On the Settings page, click **Security**.

3. Click the **SAML** tab.

4. Paste the URL that you copied from the Okta site.

Settings
Settings > Security

Homepage
Jobs
Recovery
Activity
Settings

Settings > Security

Password IP Restrictions **SAML**

SAML provider
Okta

Identity Provider Metadata File
Please upload SAML metadata XML file generated by Okta

Upload URL

URL to the SAML Identity Provider Metadata file.

Upload File

No file chosen.

Activate

5. Click **Activate**.
6. Read the "Are you sure you want to activate SAML Authentication with Okta" message in the next window, and click **Confirm**.

Are you sure you want to activate SAML Authentication with Okta?

Activating SAML Authentication will disable Email & Password Authentication

Please verify all the users in this account are also configured in Okta, so they will be able to login to CloudAlly after SAML activation.

Cancel Confirm

After clicking **Confirm**, the Activate state changes from **Email & Password: Active** to **SAML: Active**.

Email & Password: Active

SAML: Active

6.4.4 IP Restrictions

Need fine-grained access control of your endpoints? You can restrict access to the Portal based on the users' IP addresses. This is especially helpful to enforce security policies and prevent unauthorized access by limiting backup/restore requests to company-approved IP addresses, such as an office IP, or a particular VPN.

Setting Up IP Restrictions

To enable IP restrictions in your account, first create the list of trusted IP addresses.

IMPORTANT!

It is strongly recommended to use this feature only if you have a static IP address, to prevent users from being locked out.

1. In the *Settings* panel, click **Security**, and then **IP Restrictions**.

2. Click **+ Add IP Address**.

3. Enter one or more IP addresses:

- a. Enter individual addresses separated by commas, and an optional description.

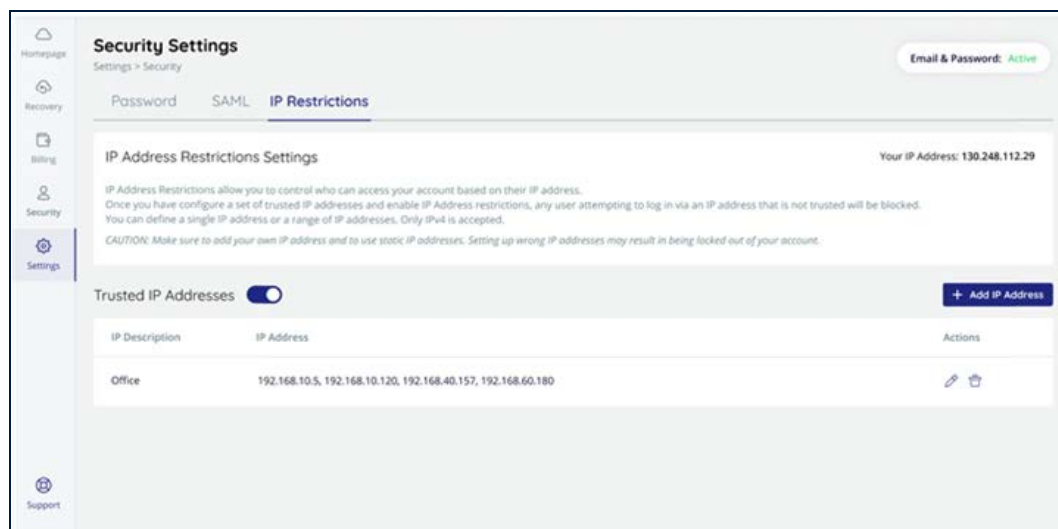

The screenshot shows a dialog box titled "Add New IP Address" with a header "Your IP Address: 130.248.112.29". It contains a text input field for "Enter IP Address description (optional)" with the placeholder "e.g. Office". Below this is a section titled "You can add one or more IP addresses, or a range of IP addresses:". There are two radio button options: "Trusted IP Address(es)" (which is selected) and "Trusted IP Address Range". The "Trusted IP Address(es)" option has a text input field with the placeholder "Separate multiple IP addresses with ','." and an example "Example 192.168.10.5". The "Trusted IP Address Range" option has two input fields labeled "From" and "To" with a hyphen between them, and an example "Example 192.168.10.0 - 192.168.10.255". At the bottom right are "Cancel" and "Save" buttons.

- b. Or, enter a one or more ranges of contiguous addresses, and an optional description. Multiple ranges could be used to accommodate VPN and internal networks.

The screenshot shows the same "Add New IP Address" dialog box, but with the "Trusted IP Address Range" option selected. The "Enter IP Address description (optional)" field now contains "Secondary office". The "Trusted IP Address(es)" option is unselected. The "Trusted IP Address Range" option is selected and has two input fields labeled "From" and "To" with a hyphen between them. The "From" field contains "79.181.255.0" and the "To" field contains "79.181.255.16". Below these fields is an example "Example 192.168.10.0 - 192.168.10.255". At the bottom right are "Cancel" and "Save" buttons.

4. Once you enter at least one address, the **Trusted IP Addresses** toggle will be turned on. You can always return to disable IP restrictions later on.

You can edit your list of addresses by clicking the pencil icon, or delete ones that you no longer want on your trusted list by clicking the trash icon.

Note: If you forget to include your own IP address on the trusted list, IP restrictions cannot be enabled.

Your CloudAlly account is now protected from access by users who are not on your list.

Blocking Access

If a user tries to access your CloudAlly account from an untrusted IP address, the following "access denied" error message will appear:

The screenshot displays the CloudAlly login interface. At the top left is the logo 'CLOUDALLY an opentext company'. At the top right are links for 'Home', 'Free Trial', and 'Log In'. The main heading is 'Sign In to your Account', with a link for 'Don't have an account? Sign up'. The email input field contains 'bob.smith@ca4software.onmicrosoft.com'. The password field is masked with dots. A red error message 'Access denied.' is shown below the password field, highlighted by an orange rectangle. A 'Sign in' button is located below the password field. Below this is a section for social login with buttons for 'Sign in with Google', 'Sign in with Microsoft', and 'Sign in with Okta'. At the bottom, there are links for 'Terms of Service and Privacy Statement' and a 'powered by aws' logo.

6.4.5 Email Notifications

Whenever you enable or disable IP restrictions, or modify the addresses, CloudAlly will send you an email notification, letting you know what has changed.

6.5 Notifications Settings

This menu option enables you to manage your system notifications.
From the Navigation Panel, click **Settings > Notifications**.

The following screen will appear:

A screenshot of the 'Settings > Notifications' page. At the top, there's a 'Summary Report' toggle switch which is turned on. Below it, 'Report Format' has two radio button options: 'Backup tasks overview' (selected) and 'Backup failure details'. Each has a 'Preview' link. 'Report Frequency' is a dropdown menu set to 'Once A Day'. Under 'Provide as:', there are two radio button options: 'CSV Attachment' and 'Download Link' (selected). A checkbox 'Send the report only in case of backup failure' is unchecked. A 'SAVE' button is at the bottom right. Below this is a section 'Send Notifications To:' with an '+ Add new recipient' button. It contains a table with one recipient, 'Bob Smith', and columns for various notification types, all of which are checked. The table footer shows 'Page 1 of 1' and 'Showing 1-1 of 1'.

The top of the screen enables you to configure the following options:

- Report Format: Backup tasks overview vs. backup failure details
- CSV Attachment vs. Download Link
- Report Frequency: daily, weekly or monthly
- Send the report only in case of backup failure

To set up a new recipient:

1. Click **+ Add new recipient**.
2. Enter the Email of the recipient and the Display name. The Display name is used in the report email to address the recipient.

3. Select the desired notification types:
 - a. Summary Report
 - b. Recovery Notification
 - c. Exceptions Notification
 - d. Auto Discovery Notification
 - e. Smart Alerts
4. Click **SAVE** to create the new recipient.

The screenshot shows the 'Settings' page for 'Notifications > New Email report'. It features a 'User Info' section with 'Email' and 'Display Name' input fields. Below this is a 'Notifications' section with five checkboxes: 'Summary Report', 'Recovery Notification', 'Exceptions Notification', 'Auto Discovery Notification', and 'Smart Alerts'. At the bottom right, there are 'Save' and 'Cancel' buttons.

7 Managing Subscriptions and Payments

7.1 Subscribing to CloudAlly

Once the trial period has ended, you need to subscribe to CloudAlly to access and manage your backups, otherwise your backed up data will be deleted.

To subscribe to a plan:

1. Click the **Subscribe** link displayed in your account. Alternatively, you can click the **Billing** option of the Navigation Panel.

The *Review Billing* page is displayed with the option to select either **MONTHLY** or **ANNUAL** billing options.

Note: You can subscribe before the end of the trial period, and the payment period will start after the trial period is over.

2. Click **MONTHLY** or **ANNUAL**, depending on your preference.

You are redirected to the *Payment Details* page. Fill in the billing and credit card details to finish the subscription process. Refer to [Payment Details](#) for more information.

7.1.1 Monthly Subscriptions

When you subscribe to a monthly plan, the credit card that you registered in the *Billing > Payment Details* page will be charged the amount that you owe.

CloudAlly's billing is handled by a PCI-compliant payment processor.

To finalize your subscription, enter your credit card details and general billing information, and then click **Subscribe**.

The initial payment will be charged at the end of your 2-week trial period.

A receipt will be emailed to you each month after you are charged.

If CloudAlly is unable to charge your credit card (e.g., because it has expired), you will be notified by email. Additionally, a message will appear in the application that

you need to go to the *Billing Status* page so you can review your billing details, and then update your credit card information if necessary.

Note: The billing status is usually updated within a few minutes after the payment is complete. If the status has not updated after 24 hours, please contact support@cloudally.com.

Note: The monthly payments are processed automatically once you provide the required information in the Payment Details section, and it has been verified that your credit card is valid. To disable automatic payment processing, please contact CloudAlly support. Instead, you will start receiving monthly invoices for the payments.

7.1.2 Annual Subscriptions

When you subscribe to an annual plan, you will receive a confirmation message that your request has been submitted, and then CloudAlly support will send you an email, asking that you confirm your annual subscription request.

Once you have confirmed, CloudAlly will email an invoice to you, payable in 30 days by credit card, PayPal, or bank transfer.

After the initial payment, CloudAlly will send you an invoice 30 days before your payment is due, in 11 months. You will also be reminded that your annual subscription is due online:

Note: The billing status is usually updated within a few minutes after the payment is complete. If the status has not updated after 24 hours, please contact support@cloudally.com.

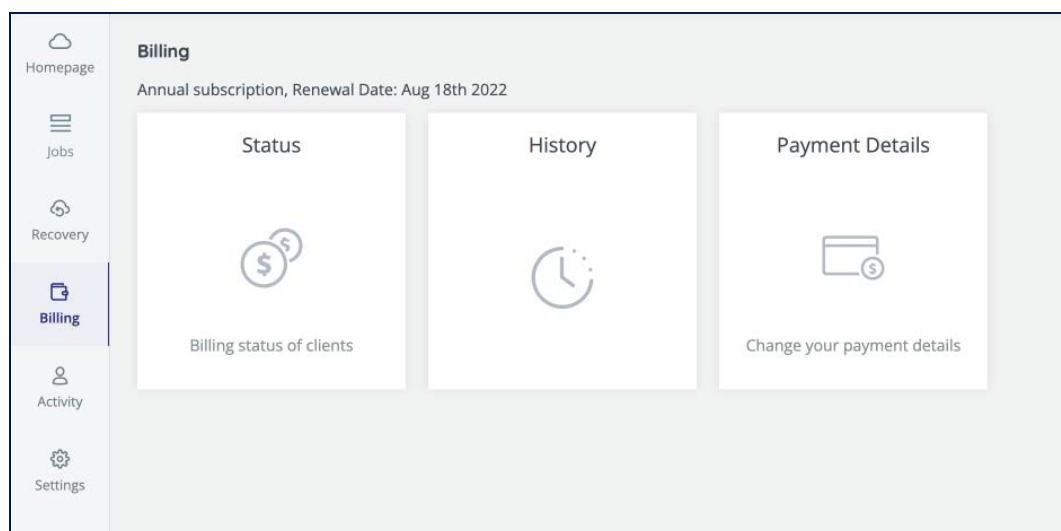

Should you fail to make your annual payment, you will be reminded with a message like this:

After you finalize your subscription, the *Billing > Payment Details* page displays additional billing management options and provides a brief summary of the payment information for the current period and the next payment date.

7.2 Payment Details

The *Payment Details* page contains the information used for billing.

7.2.1 Monthly Subscriptions

If you have chosen a monthly payment plan, you can update your credit card and billing details here:

The screenshot shows the 'Billing > Payment' page. It has two main sections: 'Credit Card Details' and 'Billing Details'. The 'Credit Card Details' section has a 'Card Number' dropdown menu showing 'CREDIT: XXXX-XXXX-XXXX-1111 (12/2023)' and buttons for 'ADD NEW CARD', 'ACTIVATE CARD', and 'Delete card'. The 'Billing Details' section contains various input fields: 'Currency' (EUR), 'First Name' (Bob), 'Billing Email' (bob.smith@ca4software.onmicrosoft.com), 'Company Name' (12345), 'Address Line 1' (123 Main Street), 'Country' (United Kingdom), 'City' (Anytown), 'Phone number' (2011234567), 'Payment Day' (5), 'Title' (Mr), 'Last Name' (Smith), 'Company Tax Id' (12345), 'Address Line 3', 'State', 'Zip Code/Postal Code' (12345), and 'Email Invoice/Receipt' (Link selected). An 'UPDATE BILLING DETAILS' button is at the bottom right.

7.2.1.1 Add New Card

The **ADD NEW CARD** option enables you to define your card information for a monthly subscription payment.

The screenshot shows the 'Billing >> Payment details' page. It includes a header with 'Billing >> Payment details' and 'Monthly subscription, next payment: Dec 13th 2020'. The 'Credit Card Details' section shows a 'Card Number' dropdown with 'undefined: XXXX-XXXX-XXXX-444...'. Below it are buttons for 'ADD NEW CARD', 'ACTIVATE CARD', and 'Delete card'. The 'Add new card details' section has a 'Card Holder's Name' input field and a 'Card Number' input field with a blue card icon and labels for 'Card Number', 'MM / YY', and 'CVV'. An 'ADD NEW CARD' button is at the bottom right.

To create a new payment method:

1. Click **ADD NEW CARD**.
2. Enter the card details such as Card Number, CVV, Card holder's name, and card expiry date.
3. Click **ADD NEW CARD**.

The new card information is saved and activated, and you can use this card.

7.2.1.2 Change Payment Method

To change your existing payment method:

1. Click the drop-down list and select the payment method from the Cards Number drop-down list.
2. Click the payment method from the list (the screen shot below depicts choosing a different credit card).
3. Click **ACTIVATE CARD** to set the selected card as the preferred payment method.

The screenshot shows the 'Billing >> Payment details' page. At the top, it says 'Monthly subscription, next payment: Dec 7th 2020'. Below this is a section titled 'Credit Card Details'. There is a 'Card Number:' label followed by a dropdown menu. The dropdown menu is open, showing three options: 'CREDIT: XXXX-XXXX-XXXX-5048 (12/2025)' (highlighted), 'CREDIT: XXXX-XXXX-XXXX-5048 (12/2025)', and 'CREDIT: XXXX-XXXX-XXXX-1111 (12/2023)'. To the right of the dropdown are three buttons: 'ADD NEW CARD', 'ACTIVATE CARD', and 'Delete card'.

The details section displays billing information such as Currency, Title, Name, and Billing email.

4. Below, there are more fields in the Billing details section. The Company Tax ID field indicates your company tax ID. (This is mandatory for Israeli companies.)

Note: Due to Value-added tax (VAT), Israeli companies must include their Tax ID. Therefore, the Company Tax ID field is mandatory for Israel, and if this field is not completed, our company will not be able to provide you with backup services.

▼ Billing Details

| | | | |

UPDATE BILLING DETAILS

5. Update the required fields. The fields marked with the * symbol are mandatory.
6. Click **UPDATE BILLING DETAILS**.
7. The updates are saved.

You can choose whether you want to receive the Invoices or Receipts as a link or as an attachment to the email.

Note: You can change the billing currency by contacting CloudAlly support.

7.2.2 Annual Subscriptions

If you have chosen an annual payment plan, you can update your billing details here. When you are done, click **SAVE**.

The screenshot shows the 'Billing > AnnualSubscription' page. The left sidebar contains links for Homepage, Jobs, Recovery, Billing (selected), Activity, Settings, and Support. The main content area has a header 'Billing > AnnualSubscription' and 'Annual subscription, Renewal Date: Oct 19th 2023'. Below this is a 'Billing Details' section with a 'Subscription Starting Date' field set to 'November 3, 2022'. Other fields include 'Currency' (USD), 'Country' (United States), 'State' (New York), 'City' (New York), 'Zip Code/Postal Code' (61234), 'Company Name' (Pizza Perfecto), 'Company Tax Id' (987654321), 'Company Address' (14652 Broadway), and 'Purchase Order Number (Optional)' (4350123). A 'Billing contact' section follows with fields for 'First Name' (Bob), 'Last Name' (Smith), and 'Billing Email' (Bob.smith@catsoftware.onmicrosoft.com). A 'Help' button is in the bottom right corner.

7.3 Billing Status

Annual Subscription

When you have paid your annual subscription, this page displays the next payment forecast for the upcoming payment date. The details include Service type and backup name, Quantity, Unit Price, and the Total Amount.

The screenshot shows the 'Billing > Status' page. The left sidebar is the same as in the previous screenshot. The main content area has a header 'Billing > Status' and a note: 'Note: The billing status is usually updated within a few minutes after the payment is complete. If the status has not updated after 24 hours, please contact support.' Below the note is a table with four columns: 'Subscription', 'Payments status', 'Next renewal date', and 'Forecast for next payment'. The data row shows 'Annual', 'Paid', 'Sep 12, 2023', and '\$226.80'. Below this is a 'Payment Forecast' table with five columns: 'Service', 'Total Quantity', 'Billable Quantity', 'Unit Price', and 'Total Amount'. The data row shows 'MS Exchange (365)', '6 mailboxes', '6 mailboxes', '\$37.80', and '\$226.80'.

| Subscription | Payments status | Next renewal date | Forecast for next payment |
|--------------|-----------------|-------------------|---------------------------|
| Annual | Paid | Sep 12, 2023 | \$226.80 |

| Service | Total Quantity | Billable Quantity | Unit Price | Total Amount |
|-------------------|----------------|-------------------|------------|--------------|
| MS Exchange (365) | 6 mailboxes | 6 mailboxes | \$37.80 | \$226.80 |

When your subscription amount becomes due, the Billing Status page displays the following information:

- **Issue date** - the date the invoice was issued
- **Status** - Paid, Due or Overdue
- **Due Date** - the date by which the invoice must be paid.
- **Effective Date** - the date the subscription period begins.
- **Total Amount** - amount owed.
- **Download Invoice** - Click this to download a PDF copy of your invoice.
- **Email Invoice** - Click this to send an invoice to your email address.
- **Pay Invoice** - Click this to directly pay the amount owed online.

You can click **Pay Invoice**, and you will be directed to the following screen, where you can pay your invoice via PayPal or by credit card:

CloudAlly

7.4 History

This page displays the history of payments.

| Billing | | | |
|---|--------------------|--------------------|------------------|
| Billing >> History | | | |
| Monthly subscription, next payment: Dec 13th 2020 | | | |
| Reference Number | Issue Date | Due Date | Amount |
| 68277  | November 13, 2020 | November 13, 2020 | \$143.45 |
| 67599  | October 13, 2020 | October 13, 2020 | \$44.65 |
| 67134  | September 13, 2020 | September 13, 2020 | \$49.40 |
| 66837  | August 13, 2020 | August 15, 2020 | \$44.65 |
| Page 1 of 1 | | | Showing 1-4 of 4 |

By clicking on the reference number, you can download the receipt, which provides details about the number of backed-up accounts or the amount of stored data, and the total amount paid. It also displays the payment method used.

An example of a receipt is displayed below.

7.5 Billing Notification Messages

Administrators can define whether individual users will see the Billing Notification Messages on their screens (e.g., Payment Due, Payment Overdue, Payment Failed).

To turn notifications on or off:

1. From the Navigation Panel, click **Settings > User Management**.
2. For an existing user, click the pencil icon next to the user's name.
For a new user, the notification options will appear when you define the new user's details.
3. Click **View billing notification messages** on or off.

The screenshot shows the 'Settings' page for a new user in the Box User Management interface. The left sidebar contains navigation links: Homepage, Jobs, Recovery, Billing, Activity, and Settings (highlighted). The main content area is titled 'Settings' and 'Settings > User Management > New user'. It includes fields for 'Email' (bob.smith@ca4software.onmicrosoft.com), 'Password' (masked), 'Type' (Email), and 'Role' (Custom). Below these fields are two sections: 'Operations' and 'Services'. The 'Operations' section has a 'General' subsection with several checkboxes, including 'View billing notification messages' which is checked. The 'Services' section has an 'All' subsection with checkboxes for various services like Microsoft Exchange, Microsoft Groups / Teams, Microsoft SharePoint, Microsoft OneDrive, Google Account, Salesforce, Dropbox Business, Box, Google Workspace, Google Shared Drives, and IMAP.

8 Helpful Resources

8.1 About CloudAlly

Founded in 2011 as one of the world's first cloud-to-cloud backup services for Google Apps and Salesforce, CloudAlly led the industry with the first commercially available Microsoft cloud backup in Q1 2014. ISO 27001 and HIPAA certified CloudAlly adheres to industry-standard best practices for information security management, including EU-GDPR compliance.

8.2 Knowledge Base

Search through articles in our Knowledge Base at <https://support.cloudally.com> to find answers to the most common user questions.

8.3 Support

Support - If you have any question or need further help, do not hesitate to contact us via email at support@cloudally.com, or visit our customer support hub: <https://support.cloudally.com>

8.4 Privacy

CloudAlly takes privacy seriously. Read our Privacy Policy at <https://www.cloudally.com/privacy-policy>

8.5 Security

CloudAlly provides a secure online backup solution with internationally recognized accreditation for information security management. Read how we protect your data at <https://www.cloudally.com/resources/secure-saas-backup/>

9 Support Pages

The Support option at the bottom of the Navigation Panel redirects you to our support hub. In the support hub, you can find articles covering some of the most common questions and providing instructions.
