1 Preface

1.1 About this Guide

Thank you for selecting CloudAlly for Box. Relax! All your Microsoft 365 data is now securely protected with easy recovery from data loss. CloudAlly comprehensively backs up your Microsoft 365 Exchange, OneDrive, SharePoint, OneNote, Teams & Groups data on industry-leading AWS S3 storage. Our product's ethos is to provide feature-rich backup and recovery with security, ease of use, and flexibility woven in.

CloudAlly is cloud-native, a full cloud-to-cloud solution. No installation is required, the setup is hassle-free, backup is easy, and there are flexible recovery and export options. Read on for instructions about how to activate and manage your backups, restore your data by keyword, from any point-in-time, and at any granular/hierarchical level, export your backups to your own storage, activate summary/exception reporting, and set up MFA and other helpful features.

Questions or comments? Please contact us at support@cloudally.com or search our Knowledge Base at https://support.cloudally.com/hc/en-us.

1.2 Audience

This guide is intended for individuals who administer CloudAlly for Box.

1.3 What's in this Guide

This guide is organized to help you find the information you need to manage CloudAlly for Box. It is divided into functional parts intended to support you as you manage your environment:

- Creating and Accessing Your Backup Account
- Backing Up Your MS 365 Data
- <u>Recovering Your Backed Up Data</u>
- Filtering and Viewing Drill-Down Details
- Managing Your Account
- Managing Subscriptions and Payments

2 Creating and Accessing Your Backup Account

2.1 Prerequisites

To administer the CloudAlly Backup for Box environment, the following is required:

Box Business Plan

2.2 Sign Up/Sign In from the CloudAlly Home Page

- 1. In your Internet browser, open <u>cloudally.com</u> and click **Login**.
- 2. Click **Customers**. The Sign In page is displayed.

	Free Trial

	G Sign up with Google	
	Sign up with Microsoft	
	By creating an account, you agree to our <u>Terms of Use</u> and <u>Privacy P</u> We'll occasionally send you account related emails.	olicy.

- 4. Complete the form, and then click Sign up.
 - **Note:** CloudAlly gives you the choice of numerous AWS data centers available in the dropdown menu "Location." These include locations in Australia, Canada, EU (France, Germany, and Ireland), US, UK, and Japan. The ability to choose from a wide range of data centers helps our customers comply with local data sovereignty laws that regulate the physical location and movement of data. In addition, we also offer a "Bring Your Own Storage" (BYOS) option on request. This allows you to backup sensitive data in your own AWS S3 buckets, S3 compatible storage service, Azure, or Google Cloud Platform. Please contact support@cloudally.com for more information.
- 5. Your trial account is created, and an email containing your activation link is sent to your email address. Click on the activation link contained in the email you received to activate your account. If you sign up with Google, Azure, or Okta, the activation link will not be sent to you.
- 6. Once your account is activated, you are redirected to the CloudAlly *login* page. Enter your email address/password and click **Sign In** to login and access your account.

You can also enable Two-Factor authentication to provide additional security. For more information, see Managing Your Account .

2.3 Resetting Your Password

If you do not remember your password, you can easily reset it using the **Password Reset** function.

1. On the sign-in page, click **Forgot your password?** to start the process of resetting your password.

	Sign In to your Account	
	Don't have an account? Sign up

- 3. In the Email field, enter the email address that you used to sign up.
- 4. Click Reset, and the Password Reset window will appear.

The email will look as follows:

CLOUD/ALLY an opentext company	CloudAlly.com
CloudAlly Backup Password Change Request	2
Hi, Adam Smith,	
Account ID: adam_smith@cloudally.com	
A request to reset your CloudA been made by: adam_smith@cl	
If you approve this request, please click the fe the password reset.	ollowing link to complete
Reset CloudAlly Password	

5. In the email, click **Reset** CloudAlly **Password** to confirm the password reset, and the *Change Your Password* window will appear.

Fill-in the new passwo	rd
New Password	Ø
Confirm New Password	Ø
Save	

6. Enter your new password in the **New Password** field and again in the **Confirm New Password** field, and click **Save**.

After resetting the password, you will be directed back to the *Sign In to your Account*.

3 Backing Up Your Box Data

Box lacks the daily backup and archiving process necessary for you to restore data after it has been manually or automatically removed from the recycle bin. CloudAlly automated daily Box backup service ensures that you can both quickly recover data from any point in time as well as export your archives for local storage.

CloudAlly's Box service backs up data from files and folders.

With a few simple clicks, you can activate backups for all or selected users.

3.1 Supported Versions

CloudAlly supports backup and recovery of the following Box versions:

- Business
- Business Plus
- Enterprise
- Enterprise Plus

Note: Box personal versions are not supported.

3.2 Creating a New Backup Task

To create a new CloudAlly backup task:

- 1. Sign in to your CloudAlly Account, or if you are already signed in, click the **Homepage** option in the Navigation Panel.
- 2. On the Homepage, click + Add Backup Task.

		Backup Frequency		Backup Hour (UTC)		
	Retain auto-archived backups for days before deleting	(7) Daily		4:00		× .
					ancel Save	

The set of options on this screen enables you to select the backup settings for the User.

- 1. You can change the name of the backup task by clicking \checkmark .
- 2. The icon to the right of the Box logo displays whether the application was able to connect to the specified Box account. If the authentication token granted for the application becomes invalid (e.g., it expires due to inactivity because you put the backup task on pause for a long time), the green Connected icon changes to the red Disconnected. To grant the application a new token, click on the icon to open the authentication dialog, and repeat the authentication process.
- 3. By default, the "Index all data for Search" option is selected, which enables CloudAlly to provide you with its granular search and restore functionality. In the process, your data is temporarily decrypted for a brief period of time, and then re-encrypted once the index is built. If this goes against your company policy and you would like to disable automatic indexing, please contact support@cloudally.com.
- 4. The Automatically activate new Users option instructs the system to detect new Users, and activate them automatically.
- 5. Backups are automatically archived when an entire site is deleted. The **Retain auto-archived backups** option allows you to retain them for a specified number of days, after which they will be deleted. Otherwise, the backups will be retained indefinitely.

Note: The **Backup Data Center** and **Retention Period** fields are "display only," and their values can't be changed here.

6. The **Backup Data Center** field displays the Data Center location you selected when you signed up with your registration.

The **Retention Period** field displays whether a retention period has been set up. By default, we provide unlimited retention of your daily backups for as long as you maintain your account subscription. You can override this default and specify a retention period in days, months, or years by submitting a support ticket. Backups older than the retention period specified will be automatically deleted.

Note: Your backup storage location cannot be changed once it's been set during the account setup process. Contact CloudAlly if you need to move backups to a different geographic region, or if you'd like more information on our "Bring Your Own Storage" (BYOS) option

7. Backup Frequency and Backup Hour

- a. Click the drop-down list adjacent to the **Backup Frequency** field and select how often you would like the backups to occur. The available options include:
 - i. Daily
 - ii. Every 3 days
 - iii. Weekly
- b. Click the drop-down list adjacent to the **Backup Hour (UTC)** field and select the backup hour. Click **Save**

Note: Adding more frequent backups is possible via a support request.

3.4 Activating Your Backups

Once you have configured your backup settings, you need to **Activate** them, in order for them to begin backing up your data.

1. Scroll down to the bottom of the screen where all of your Users are listed.

4. Alternatively, if you prefer to perform an immediate, on-demand backup, click **Action** > **Backup Now**.

3.5 Removing a Backup

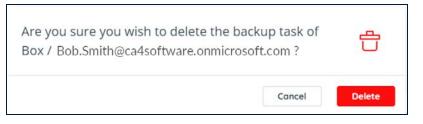

You can delete individual user backups or the entire backup service from your account if you do not want to use them further. The following sections guide you through the process of removing backup services and individual user backups.

3.5.1 Removing a Backup Task

To remove a backup task for a service, on the *Homepage*, click Menu > **Delete Backup** adjacent to the backup task you want to remove.

Box Bockup # box Box Succeeded	Total Active Total Size K C C C C C C C C C C C C	ast Snapshot Next Backup Never in 13 hours	S Innorry I
			Ci Pause Backup

The **Confirm Delete** pop-up window is displayed with a warning message.

Click **Delete**. The selected backup service is removed from your account.

To prevent mistaken deletions, there is a grace period of 7 days after your backup is deleted.

3.5.2 Removing an Individual User

To remove an individual User:

- 1. Click the backup service from which you want to remove the User. The backup task settings page is displayed.
- 2. Add a check next to the Userthat you want to remove. Click **Delete** in the **Actions** menu.

ACTION	
Q	_

- 3. Alternatively, you can click **Q** in the Action column to drill down into the snapshot and view the structure of the backed up data. There you can select one or more items for recovery.
- 4. Once you select a snapshot (if you wish to recover all the data in the backup), or one or more items (if you wish to recover only selected items), the **Restore** and **Download** buttons become available.

4.1.1.1 Restore

If you click **Restore**, the restore confirmation window appears, asking you about the following:

- Do you want to restore to another folder or account? If so, provide the new location information.
- Do you want to perform a non-destructive backup, where the restored files are added to a new folder with a blue label indicating that they have been restored?
- Or do you want to perform an in-place restore? There are two options:
 - Replace: The restored content will be merged with existing data. Deleted items and folders will be restored from the snapshot. Existing items will be overwritten with the snapshot version.
 Use this option: to restore or repair deleted / modified items

• **Bypass**: The restored content will be merged with existing data. Deleted items and folders will be restored from the snapshot. Existing items will be skipped.

Use this option: to restore deleted data.

Please confirm the restore request	×						
You are about to restore items from the archive of Test123@cloudrein.com							
Restore to Test123@cloudrein.com							
*You can restore the data to a different account.							
Please select your restore method:							
Non-destructive: Data will be restored to a folder.							
In-place restore to the live site is also available, please select how you want to handle existing data:							
O Replace: Restore will overwrite existing live data. O Bypass: Existing data will be bypassed and not restored.							
A confirmation Email will be sent to you upon completion.							
Cancel OK							

The backup data that you selected will be restored to the location that you specified. When the recovery process is complete, a summary will be sent to your email.

You can also check the Jobs page to see the progress of your task. See <u>"Tracking</u> Recovery Tasks on the Jobs Page."

4.1.1.2 Export/Download

1. If you click **Download**, the following confirmation window appears.

Please confirm the export request						
You are about to export items from the archive of Test123@cloudrein.com						
Export in .zip format:						
for download	/					
A notification Email with a download link will be sent to you upon completion.						
Cancel OK						

2. Click the drop-down list and select one of the following storage locations:

Please confirm the export request	×
You are about to export items from the archive of Test123@cloudrein.com	
Export in .zip format:	
for download 🗸	ך ו
for download	
to your Amazon S3	
to your Azure Blob	
to your Box.com	
to your Dropbox	
to your AWS S3 compatible	
to your GCP storage	

- 3. If you select options other than "for download," you may be asked for additional credentials and/or access tokens for the selected storage locations.
- 4. Click **OK**. The download instructions are sent to your registered email address. The download link is only valid for 72 hours.
- 5. Or, you can check the *Jobs* page. (See <u>"Tracking Recovery Tasks on the Jobs</u> <u>Page."</u>) When the task is completed, the **Download Results** button will be active.

4.1.2 Restore or Download Via Item Search

- 1. Select Via Item Search, and enter a word or phrase to search on.
- 2. Or, click the arrow \checkmark to the right of the search bar, and enter search criterion in any of the Advanced fields: Author, file name or date.

3		bob.smith@ca4software.onmicrosoft.com Bob.Smit	th Log Out 🗄
C Company Incompany Incompany Recovery Accordy Second	Restore or download Box Backup task: Box Backup		
e const			🕑 Help

- 3. Click **Continue**. The *Restore or download* page is displayed, showing the search results with details such as Type, Name and Date. The details columns are different for different types of restored items.
- 4. Select items you would like to restore or download. When at least one item is selected, **Restore** and **Download** become available.
- 5. Follow the instructions in the <u>Restore</u> or <u>Export/Download</u> sections to complete the recovery process.

4.2 Tracking Recovery Tasks on the Jobs Page

The Jobs page provides you with both high-level and drill-down views of your restore and export jobs over the last seven days.

Note: To see the status of your Backups, click the name of the backup from the *Homepage*.

From the Navigation pane, click **Jobs**.

4.2.1 High-Level Summary

The top portion of the Jobs dashboard summarizes how many of your jobs are in progress, how many have successfully completed, and how many have partially succeeded or failed over the past 7 days.

•				bob.smith@ca4sofbware.onm	icrosoft.com Bob Smith Log Out
Jobs 2 Tot	e tal Jobs for last 7 Days				
	● In Progress		2 Successfully Completed	Failures	
0	nitiator v Activity v	(Service v) (Status v)		Q Search by Task 🗸	finit ×) Order by ×
	Box Bockup Box		Export		Succeeder
	Test123@cloudrem.com				

To see a list of jobs that have any of these 3 statuses, click on the status, and your results will be filtered accordingly

4.2.2 Filtering

The next section allows you to filter by numerous criteria:

- Initiator: Who initiated the backup / restore?
- Activity: Filter by restores or exports.
- Service: Filter by one of the following services, such as:
 - Microsoft Exchange
 - Microsoft SharePoint
 - Microsoft Groups / Teams
 - Microsoft OneDrive
 - Google Workspace
 - Google Shared Drives
 - Salesforce
 - Box
 - Dropbox
 - Google Account
 - IMAP
- **Status**: Filter by one of the following:
 - In progress
 - Succeeded
 - Partially succeeded
 - Failed
 - Pending
 - Canceled
- Search by Task: Filter by a task, such as:
 - MS Exchange
 - Teams/Groups
 - One Drive
 - Sharepoint

If you choose to filter using a particular service, then you can focus on a specific item in the search bar. You can also order by:

- Latest First
- Oldest First

4.2.3 Description of Each Job

- The rest of the screen provides a detailed description of each individual job that you ran.
 - **Type of Job**: Export, or Restore this appears as a large title within each job description.
 - Name, Service, and Account of the job.
 - Start date, backup date, initiator, destination, total items backed up or restored, and the size of the file(s).
- **Cancel** enables you to stop a job that is in progress.
- Download Results enables you to download a zip file with your recovery data.
- View Log redirects you to the System Activity page, which displays your account activity with details such as Activity, Date and Time, Service, Sub-Service, Status, Task Name, and Item.

3						bob:	smith@ca4software.onmicrosoft.com	Bob Smith Log Out

	Data Size. Description:	Mail Completed (adam.smith@onmicrosoft.com,
		80 items, 720 Bytes delta data size, 0 minutes.)

5.1.2 Security Audit

The *Security Audit* page provides information about all the security-related actions that have happened in your account. The user activity that is displayed includes:

- Backup deleted
- User deactivated
- Settings changed
- Sign-in success or failure
- Permissions changed
- Notifications.

The page includes the date of the event, the type of activity, the service involved, the status of the activity, the account performing the activity, and the description.

The Security Audit table can be exported as a CSV file by clicking Export.

5.2 Managing Your Account Settings

The *Settings* page provides you with tools to control both your account and the accounts of users whose external credentials are linked to your account. The Settings section consists of the following sub-sections:

- Account
- User Management
- Security
- Notifications

You can find more details on each of the *Settings* pages below.

⊢ Homepage	Settings			
⊒ Jobs	Account	User Management	Security	Notifications
© Recovery	දුරු	2	\bigcirc	Ô
C) Billing	Manage account settings	Manage other users	Manage security settings	Manage system notifications
<u>Activity</u>				
(a) Settings				

5.2.1 Account Settings

This page allows you to change the name of your account and the email address. You can only change the Data Center Location by contacting CloudAlly support. Finally, this page also allows you to terminate your account.

To update or change your account details:

From the Navigation Panel, click Settings and then click **Account** . The *Settings* > *Account* page is displayed.

Account Name	Max Steward	
Email	m.steward@cloudally.com	
Data Center Location	US East (Northern Virginia)	
		(SAVE) (Cancel
ro terminate your 0	loudAlly subscription, click on the REMOVE ACCOUNT button	1.
	rour data at CloudAlly	
his includes removing all		
This includes removing all	of my data from CloudAlly	

You can update the Account Name and/or Email. Click **SAVE**.

5.2.2 Canceling Your CloudAlly Subscription

To cancel your subscription:

- 1. Select the check adjacent to the "I approve the removal of my data from CloudAlly" field and click **REMOVE ACCOUNT**.
- 2. The Are you sure? pop-up window is displayed with a confirmation request.
- 3. Click **YES** to confirm the cancellation.

Are you sure?	×
I approve the removal of my data from CloudAlly	
	YES NO

Note: To prevent mistaken deletions, there is a grace period of 7 days after your account is terminated. After the grace period, if your account is not reactivated, all data from all your backups will be deleted.

5.3 User Management

The page provides tools for fine-level control of the permissions and access levels of your users.

Settings Settings > User Management								
The following external credentials are currently linked to your CloudAlly account								
You can remove the credentials anytin	ne if you prefer to use only y	our CloudAlly sign-in credentials		+ Add new user				
Email	Туре	2FA Authentication

5.4 Security Settings

The Security Settings page enables you to:

Personal Password Policies	
Change your CloudAlly account password	Change password
You can also use Two-Factor Authentication	Activate 2FA

- Update your password
- Set up two-factor authentication

The bottom section allows you to enforce certain security policies for your users' accounts.

Enforce The Following Password Policies On All Users		
C Enforce Two-Factor Authentication on all users 🕕		
Password Expiration: Password expires after (days): 90		
	Concel	Sove

- With the Enforce Two-Factor Authentication option, you can make twofactor authentication mandatory for all the users in your account.
- By setting the **Password Expiration**, you can enable the password expiration option for all your users – you will be also be asked for the number of days before the users' passwords expire.

5.4.1 Changing Your Password for Credential-Based Authorization

You can change your existing account password by performing the following procedure:

- 1. From the **Settings** >**Security** page, in the Personal Password Policies panel, click **Change Password**.
- 2. The Change password pop-up is displayed.

Change password	×
Current Password:	
New Password:	
Confirm New Password:	
	SAVE Cancel

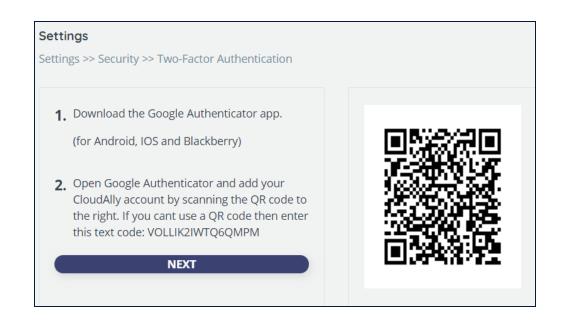

- 3. Enter the current password in the Current Password field.
- 4. Enter the new password in the New Password field.
- 5. Re-enter the new password in the Confirm New Password field.
- 6. Click SAVE. You can now use this password to access your account.

5.4.2 Two-Factor Authentication

Two-factor authentication provides additional security to your account and your backup data.

To enable two-factor authentication:

1. Click Activate 2FA. The Two-Factor Authentication page is displayed.

- 2. Download an Authenticator app, depending on your platform.
- 3. Open the Authenticator app and add your account by scanning the QR code provided in the web application.
- 4. If you cannot use a QR code, then enter the text code provided in the web application.
- 5. A six-digit code is generated.
- 6. Click **NEXT**.
- 7. Enter the 6-digit code that the application generated.
- 8. Click **ENABLE** to complete the process of activating the Two-factor authentication.

From now on, every time you sign in to your Account, you are asked to enter a 6digit code from your authentication app, after you click **SIGN IN**. Click **VERIFY** to verify the code and access the application.

5.4.3 SAML

The Security Assertion Markup Language (SAML) is an open federation standard that allows an identity provider (IdP) to authenticate users and then pass an authentication token to another application known as a service provider (SP).

CloudAlly supports Okta as its SAML provider.

There are two steps to setting up Okta so that you can use it to log in to CloudAlly:

- Setting up Okta in the CloudAlly application
- Setting up CloudAlly in the Okta Application

5.4.3.1 Setting up CloudAlly in the Okta Application

 In the Okta application, click Applications > Applications > Browse App Catalog.

okta		Q Search
Dashboard	ř	Applications
Directory	~	Applications
Customizations	~	Developer Edition provides a limited number of apps.
Applications	^	Deactivate unused apps or check out our plans page. Contact us to find a plan that is right for your organization.

(i) Settings				

3. Click the SAML tab.

 Homepage	Settings Settings > Security		
Jobs	Password	IP Restrictions	SAML

4. Paste the URL that you copied from the Okta site.

Homepage Bill Jobs	Settings Settings > Security Password IP Restrictions SAML	Email & Password: Active
Secovery Activity Sectings	SAML provider Source So	
	http://Bds.mthlgekta.com.home/12345/89/_couldly-am20_1//Ocd/refpetd3092109va URL to the SAML Identity Provider Metuateta file. Upload File L: Choose file No file choose.	Activate

- 5. Click Activate.
- 6. Read the text in the next window, and click **Confirm**.

Are you sure you want to activate SAML Authentication with Okta?	×
Activating SAML Authentication will disable Email & Password Authentication	
Please verify all the users in this account are also configured in Okta, so they will l to login to CloudAlly after SAML activation.	be able
Cancel	onfirm

After clicking Confirm, the Activate state (top right corner of the screen) changes from **Email & Password: Active** to **SAML: Active.**

5.4.4 IP Restrictions

Need fine-grained access control of your endpoints? You can restrict access to the Portal based on the users' IP addresses. This is especially helpful to enforce security policies and prevent unauthorized access by limiting backup/restore

Visit our Customer Support Hub

requests to company-approved IP addresses, such as an office IP, or a particular VPN.

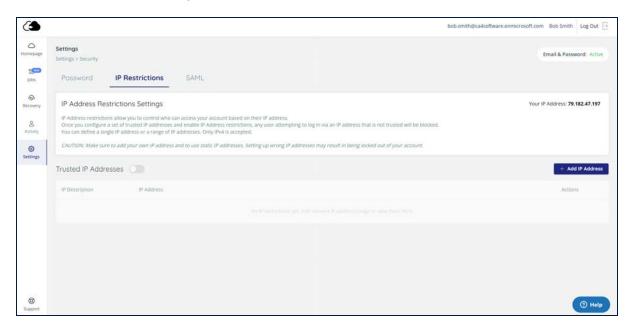

Setting Up IP Restrictions

To enable IP restrictions in your account, first create the list of trusted IP addresses.

IMPORTANT!

It is strongly recommended to use this feature only if you have a static IP address, to prevent users from being locked out.

1. In the *Settings* panel, click **Security**, and then **IP Restrictions**.

- 2. Click + Add IP Address.
- 3. Enter one or more IP addresses:
 - a. Enter individual addresses separated by commas, and an optional description.

Ad	d New IP Addr	ess	Your IP Address: 130.248.112.29		
Ente	er IP Address descrip	otion	(optional)		
e.g	, Office				
You	can add one or mo	re IP addresses, or a ra	nge of IP addresses:		
۲	Trusted IP Address	(es)			
	Separate multiple IP a	ddresses with ",".			
	Example 192.168.10.5				
	Trusted IP Address	Range			
	From	То			
	Example 192.168.10.0	- 192.168.10.255			
			Cancel Save		

b. Or, enter a one or more ranges of contiguous addresses, and an optional description. Multiple ranges could be used to accomodate VPN and internal networks.

Add New IP Address	Your IP Address: 79.181.255.0
Enter IP Address description	(optional)
Secondary office	
You can add one or more IP addresses, or a range of IP a	ddresses:
 Trusted IP Address(es) 	
Separate multiple IP addresses with ",".	
	11
Example 192.168.10.5	
Trusted IP Address Range	
From To	
79.181.255.0 - 79.181.255.16	
Example 192.168.10.0 - 192.168.10.255	
	Cancel Save

4. Once you enter at least one address, the **Trusted IP Addresses** toggle will be turned on. You can always return to disable IP restrictions later on.

6 Managing Subscriptions and Payments

6.1 Subscribing to CloudAlly

Once the trial period has ended, you need to subscribe to CloudAlly to access and manage your backups, otherwise your backed up data will be deleted.

To subscribe to a plan:

1. Click the Subscribe link displayed in your account. Alternatively, you can click the Billing option of the Navigation Panel.

Billing Trial		
• 1	4 days left for your free trial, review y	our billing details
(i) Choose your s	subscription plan	MONTHLY ANNUAL
Service	Quantity	
	No records to view	
	Page 1	

The *Review Billing* page is displayed with the option to select either **MONTHLY** or **ANNUAL** billing options.

Note: You can subscribe before the end of the trial period, and the payment period will start after the trial period is over.

2. Click **MONTHLY** or **ANNUAL**, depending on your preference.

You are redirected to the *Payment Details* page. Fill in the billing and credit card details to finish the subscription process. Refer to <u>Payment Details</u> for more information.

6.1.1 Monthly Subscriptions

When you subscribe to a monthly plan, the credit card that you registered in the *Billing > Payment Details* page will be charged the amount that you owe.

CloudAlly's billing is handled by a PCI-compliant payment processor.

To finalize your subscription, enter your credit card details and general billing information, and then click **Subscribe**.

The initial payment will be charged at the end of your 2-week trial period.

A receipt will be emailed to you each month after you are charged.

If CloudAlly is unable to charge your credit card (e.g., because it has expired), you will be notified by email. Additionally, a message will appear in the application that you need to go to the *Billing Status* page so you can review your billing details, and then update your credit card information if necessary.

Note: The payment status is updated every 24 hours, so if you update your credit card details but the reminder is still there, check again tomorrow.

Note: The monthly payments are processed automatically once you provide the required information in the Payment Details section, and it has been verified that your credit card is valid. To disable automatic payment processing, please contactCloudAlly support. Instead, you will start receiving monthly invoices for the payments.

6.1.2 Annual Subscriptions

When you subscribe to an annual plan, you will receive a confirmation message that your request has been submitted, and then CloudAlly support will send you an email, asking that you confirm your annual subscription request.

Once you have confirmed, CloudAlly will email an invoice to you, payable in 30 days by credit card, PayPal, or bank transfer.

After the initial payment, CloudAlly will send you an invoice 30 days before your payment is due, in 11 months. You will also be reminded that your annual subscription is due online:

Note: The payment status is updated every 24 hours, so if you update your credit card details but the reminder is still there, check again tomorrow.

Should you fail to make your annual payment, you will be reminded with a message like this:

CLO an agentication	UDALLY Cloud to Cloud Backup	A Invoice Overdue: Please pay your annual subscription.	Updated on: Nov 56 2022	bob.smith@ca4software.onmicrosoft.com Bob Smith Log Out 🗗
O Homepage	Billing Billing > Status			
里 Jobs	Note: The billing status is upda	ated once a day. If you made any recent payments it will be refl	lected in the next 24 hours.	

After you finalize your subscription, the *Billing > Payment Details* page displays additional billing management options and provides a brief summary of the payment information for the current period and the next payment date.

6.2 Payment Details

Payment Day:	6			

6.2.1.1 Add New Card

The **ADD NEW CARD** option enables you to define your card information for a monthly subscription payment.

Billing						
Billing >> Payment details						
Monthly subscription, next	t payment: Dec 13th 2020					
~ Credit Card De	tails					
Card Number:	undefined: XXXX-XXXX-XX	XX-444 🗸				
				ADD NEW CARD	ACTIVATE CARD	(Delete card)
				ADD NEW CARD	ACTIVATE CARD	Delete talu
~ Add new card c	details					
Card Holder's Name:	Card Holder's Name:					
Card Number:	Card Number	MM / YY	CVV			
					A	DD NEW CARD

To create a new payment method:

- 1. Click ADD NEW CARD.
- 2. Enter the card details such as Card Number, CVV, Card holder's name, and card expiry date.
- 3. Click ADD NEW CARD.

The new card information is saved and activated, and you can use this card.

6.2.1.2 Change Payment Method

To change your existing payment method:

- 1. Click the drop-down list and select the payment method from the Cards Number drop-down list.
- 2. Click the payment method from the list (the screen shot below depicts choosing a different credit card).
- 3. Click **ACTIVATE CARD** to set the selected card as the preferred payment method.

Billing Billing >> Payment detail	s	
Monthly subscription, ne	xt payment: Dec 7th 2020	
~ Credit Card De	etails	
Card Number:	CREDIT: XXXX-XXXX-XXXX-5048 (1 🗸	
	CREDIT: XXXX-XXXX-XXXX-5048 (12/2025)	
	CREDIT: XXXX-XXXX-XXXX-1111 (12/2023)	ADD NEW CARD ACTIVATE CARD Delete card

The details section displays billing information such as Currency, Title, Name, and Billing email.

4. Scroll down for more fields in the Billing details section. The Company Tax ID field indicates your company tax ID. (This is mandatory for Israeli companies.)

Note: Due to Value-added tax (VAT), Israeli companies must include their Tax ID. Therefore, the Company Tax ID field is mandatory for Israel, and if this field is not completed, our company will not be able to provide you with backup services.

7 Helpful Resources

7.1 About CloudAlly

Founded in 2011 as one of the world's first cloud-to-cloud backup services for Google Apps and Salesforce, CloudAlly led the industry with the first commercially available Microsoft cloud backup in Q1 2014. ISO 27001 and HIPAA certified CloudAlly adheres to industry-standard best practices for information security management, including EU-GDPR compliance.

7.2 Knowledge Base

Search through articles in our Knowledge Base at <u>https://support.cloudally.com</u> to find answers to the most common user questions.

7.3 Support

Support - If you have any question or need further help, do not hesitate to contact us via email at <u>support@cloudally.com</u>. or visit our customer support hub: <u>https://support.cloudally.com</u>

7.4 Privacy

CloudAlly takes privacy seriously. Read our Privacy Policy at https://www.cloudally.com/privacy-policy

7.5 Security

CloudAlly provides a secure online backup solution with internationally recognized accreditation for information security management. Read how we protect your data at https://www.cloudally.com/resources/secure-saas-backup/

8 Support Pages

The Support option at the bottom of the Navigation Panel redirects you to our support hub. In the support hub, you can find articles covering some of the most common questions and providing instructions.
