# 1 Preface

# 1.1 About This Guide

Thank you for selecting CloudAlly for Box. Relax! All your Box data is now securely protected with easy recovery from data loss. CloudAlly comprehensively backs up your data on industry-leading AWS S3 storage. Our product's ethos is to provide feature-rich backup and recovery with security, ease of use, and flexibility woven in.

CloudAlly is cloud-native, a full cloud-to-cloud solution. No installation is required, the setup is hassle-free, backup is easy, and there are flexible recovery and export options. Read on for instructions about how to activate and manage your backups, restore your data by keyword, from any point-in-time, and at any granular/hierarchical level, export your backups to your own storage, activate summary/exception reporting, and set up MFA and other helpful features.

Questions or comments? Please contact us at support@cloudally.com or search our Knowledge Base at https://support.cloudally.com/hc/en-us.

# 1.2 Audience

This guide is intended for individuals who administer CloudAlly for Box.

# 1.3 What's in This Guide

This guide is organized to help you find the information you need to manage CloudAlly for Box. It is divided into functional parts intended to support you as you manage your environment:

- Creating and Accessing Your Backup Account
- Backing Up Your Data
- Recovering Your Backed Up Data
- Filtering and Viewing Drill-Down Details
- Managing Your Account
- Managing Subscriptions and Payments

# 2 Creating and Accessing Your Backup Account

# 2.1 Prerequisites

To administer backups for the Box environment, the following is required:

Box Business Plan

# 2.2 Sign Up/Sign In from the CloudAlly Home Page

- 1. In your Internet browser, open cloudally.com and click Login.
- 2. Click **Customers**. The Sign In page is displayed.

	Free Bial

	G Sign up with Google
	Sign up with Microsoft
	By creating an account, you agree to our Terms of use and Polyacy Publicy.

- 4. Complete the form, and then click Sign up.
  - Note: CloudAlly gives you the choice of numerous AWS data centers available in the dropdown menu "Location." These include locations in Australia, Canada, EU (France, Germany, and Ireland), US, UK, South Africa, India, and Japan. The ability to choose from a wide range of data centers helps our customers comply with local data sovereignty laws that regulate the physical location and movement of data. In addition, we also offer a "Bring Your Own Storage" (BYOS) option on request. This allows you to backup sensitive data in your own AWS S3 buckets, S3 compatible storage service, Azure, or Google Cloud Platform. Please contact support@cloudally.com for more information.
- 5. Your trial account is created, and an email containing your activation link is sent to your email address. Click on the activation link contained in the email you received to activate your account. If you sign up with Google, Azure, or Okta, the activation link will not be sent to you.
- 6. Once your account is activated, you are redirected to the CloudAlly *login* page. Enter your email address/password and click **Sign In** to login and access your account.

**Note:** You can also enable Two-Factor authentication to provide additional security. For more information, see Managing Your Account .

7. After you log in, you will see the following screen, enabling you to begin creating your backup tasks:

## 2.3 Resetting Your Password

If you do not remember your password, you can easily reset it using the **Password Reset** function.

1. On the sign-in page, click **Forgot your password?** to start the process of resetting your password.

	Sign In to your Account
	Don't have an account? Sign up
bob.smith@	∂ca4software.onmicrosoft.com
Password

	Sign In with Okta

2. The Password Reset page will appear.

Passwo	ord Reset
	password, enter s you signed up with
Email	
R	eset
ign in	Sign u

- 3. In the Email field, enter the email address that you used to sign up.
- 4. Click **Reset**, and the *Password Reset* window will appear.

The email will look as follows:

COUDALLY an opentext company	CloudAlly.com
CloudAlly Backup Password Change Request	<b>(</b>
Hi, Adəm Smith,	
Account ID: adam_smith@cloudally.com	
A request to reset your Clou been made by: adam_smith@	
If you approve this request, please click th the password reset.	e following link to complete
Reset CloudAlly Password	

5. In the email, click **Reset CloudAlly Password** to confirm the password reset, and the *Change Your Password* window will appear.

Fill-in the new passwor	rd
New Password	Ø
Confirm New Password	Ø
Save	

6. Enter your new password in the **New Password** field and again in the **Confirm New Password** field, and click **Save**.

After resetting the password, you will be directed back to the *Sign In to your Account*.

# 3 Backing Up Your Box Data

Box lacks the daily backup and archiving process necessary for you to restore data after it has been manually or automatically removed from the recycle bin. CloudAlly's automated daily backup of your Box data ensures that you can both quickly recover data from any point in time as well as export your archives for local storage.

With a few simple clicks, you can activate backups for all or selected users.

# 3.1 Supported Versions

CloudAlly supports backup and recovery of the following Box versions:

- Business
- Business Plus
- Enterprise
- Enterprise Plus

**Note:** Box personal versions are not supported.

# 3.2 Creating a New Backup Task

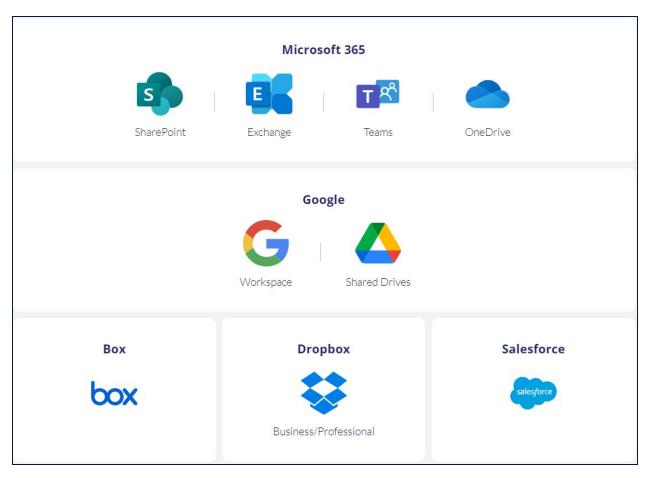

### To create a new backup task:

- 1. Sign in to your account, or if you are already signed in, click the **Homepage** option in the Navigation Panel.
- 2. On the Homepage, click + Add Backup Task.

### The following page is displayed:

3. Click Box. The following screen appears.

- 4. Fill in the name of the backup task. This name is used in the notifications and reports, and it can be changed later.
- 5. Click **Authenticate in Box**. You will be directed to the *Box login* page, where you need to add your user name and password. Click **Authorize**.
- 6. You will be redirected to the *Backup Settings* page, where you can adjust the settings of the backup.

() Homepage	Box Backup 🖌 Homepage > Box Backup

	Retain auto-archived backups for days before deleting 📵	Daily	1:00	
				Concel Sove

On this page, you can adjust the backup settings and activate backups for the Box users. See the sections below for the detailed procedures.

# 3.3 Configuring Backup Settings

To access the configuration screen, click the gear-shaped settings icon.

Homepage	Box Backup / 1 Homepage > OneDrive - full backup				
jobs					٥
Recovery	Backup Settings The automatic addition/deletion of an account, site, domain, table or drive can affect your mo	onthly or annual billing amount

	Automatically activate new sites 💿	Backup Frequency		Backup Hour (UTC)	
	Retain auto-archived backups for days before deleting	7 Daily		4:00	× 1
				co	ancel Save

- 1. You can change the name of the backup task by clicking the pencil icon.
- 2. The icon next to the Box logo displays whether the application was able to connect to the specified Box account. If the authentication token granted for the application becomes invalid (e.g., it expires due to inactivity because you put the backup task on pause for a long time), the Connected icon changes to Disconnected. To grant the application a new token, click on the icon to open the authentication dialog, and repeat the authentication process.
- 3. By default, the "Index all data for Search" option is selected, which enables CloudAlly to provide you with its granular search and restore functionality. In the process, your data is temporarily decrypted for a brief period of time, and then re-encrypted once the index is built. If this goes against your company policy and you would like to disable automatic indexing, please contact support@cloudally.com.
- 4. The Automatically activate new users option instructs the system to detect new users, and activate them automatically.
- 5. Backups are automatically archived when an entire site is deleted. The **Retain auto-archived backups** option allows you to retain them for a specified number of days, after which they will be deleted. Otherwise, the backups will be retained indefinitely.

**Note:** The **Backup Data Center** and **Retention Period** fields are "display only," and their values can't be changed here.

6. The **Backup Data Center** field displays the Data Center location you selected when you signed up with your registration.

The **Retention Period** field displays whether a retention period has been set up. By default, we provide unlimited retention of your daily backups for as long as you maintain your account subscription. You can override this default and specify a retention period in days, months, or years by contacting CloudAlly support. Backups older than the retention period specified will be automatically deleted.

**Note:** Your backup storage location cannot be changed once it's been set during the account setup process. Contact CloudAlly support if you need to move backups to a different geographic region, or if you'd like more information on our "Bring Your Own Storage" (BYOS) option.

### 7. Backup Frequency and Backup Hour

- a. Click the drop-down list adjacent to the **Backup Frequency** field and select how often you would like the backups to occur. The available options include:
  - i. Daily
  - ii. Every 3 days
  - iii. Weekly
  - iv. 3 times a day
- b. Click the drop-down list adjacent to the **Backup Hour (UTC)** field and select the backup hour. Click **Save**.

**Note:** 3x daily backups might be subject to additional charges. Please contact CloudAlly support or your sales representative if you have any questions before changing the backup frequency.

# 3.4 Activating Your Backups

Once you have configured your backup settings, you need to **Activate** them, in order for them to begin backing up your data.

1. Scroll down to the list of users.

omepage	Box Backup 🖉 Homepage > Box Backup							
<b>⊞</b> jobs								۲
(S) ecovery								-
8 Activity	6 Total Users Active Paused Archived							3
Settings	C Search Users	🗇 🗇 Filter by tag			Stotus	Togs	Act	don ~

S Recovery Backup Now	) :

# 3.5 Securing Your Backups

By default, all primary and secondary users can preview, browse, and recover any backed up data. This could be a security risk if sensitive information is contained in the backup snapshots.

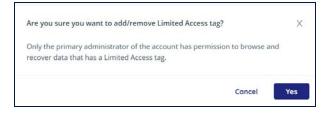

Primary users can limit access to one or more sites, drives, accounts, or users so that only they will be able to see, restore and export this data.

- 1. Primary user: From the *Homepage*, click the name of the service whose data you would like to restrict.
- 2. Click one or more users.
- 3. Click Tags, and check the Limited Access tag.

	Filter by tag		(Status ~) Tag	Action ~

4. Click Apply. You will be asked to confirm:

5. The tag will now appear in the **Tags** column as follows.

33 Total Users ctive Paused Archived									(3)
G Search by account name or email		😑 Filter by tag				Statu	s v (Togs -	Acti	ion 🗸
]√ Username	¢	Email	0	Tags	Status 0	Backup Size 🔅	Last Backup 💲	Backup	
Bob Smith		bob.smith@ca4software.onmicrosoft.com		C Limited Access	<ul> <li>Success</li> </ul>	51.01 GB	8 hours ago	<b>Gi</b> 🖗	
Alex Douglas		alex.douglas@ca4software.onmicrosoft.com			<ul> <li>Success</li> </ul>	100.35 KB	8 hours ago	<b>G</b> 9	
Rosy White		rosy.white@ca4software.onmicrosoft.com			Success	14.89 GB	one day ago	Gi 9	
Charles Parker		charles.parker@ca4software.onmicrosoft.com			Success	3.39 MB	8 hours ago	Gi 9	
Sarah Johnson		sarah.johnsonca4software.onmicrosoft.com			Success	3.55 MB	8 hours ago	6 9	

This will prevent secondary users from browsing and recovering the data.

To remove the tag, the primary user should simply reverse the process - un-check the Limited Access tag, and re-apply.

# 3.6 Deleting a Backup

You can delete individual user backups or the entire backup service from your account if you do not want to use them further. The following sections guide you through the process of removing backup services and individual user backups.

### 3.6.1 Deleting a Backup Task

To remove a backup task for a service, on the *Homepage*, click Menu > **Delete Backup** adjacent to the backup task you want to remove.

er box Bokup ar box Box Socceeded	Total Ø Active Ø Total Size Last Snapshot Next Backup Ø Badrinsteinen
	Ci Proce Backup 😁 Delete Backup

The **Confirm Delete** pop-up window is displayed with a warning message.

Are you sure you wish to delete Box / Bob.Smith@ca4software.or		습
	Cancel	Delete

Click Delete. The selected backup service is removed from your account.

To prevent mistaken deletions, there is a grace period of 7 days after your backup is deleted.

### 3.6.2 Deleting an Individual user

### To delete an individual user:

- 1. Click the backup task from which you want to delete the user. The backup task settings page is displayed.
- 2. Add a check next to the user that you want to delete. Click **Delete** in the **Actions** menu.

3. A pop-up window is displayed with a list of users selected for removal. Click **Delete**. The selected users are removed from your account.

To prevent mistaken deletions, there is a grace period of 7 days after your backup is deleted.

### 3.7 Usage Reports

In order to provide greater clarity to you about which users CloudAlly is backing up, you can export a CSV file that lists all of the entities that were backed up, including the status of each entity (active, inactive, or archived).

To export a usage report, click the **Export** button, next to **Add Backup Task**. The report will be sent to you via email.

- 2. Click the Box icon from the list or enter a keyword in the Search field to find a specific task. The *Box Backup* page is displayed.
- 3. Click **Settings** on the top-right section of the screen to see the backup settings.

From here, it is possible to modify the fields described in <u>Configuring Backup</u> <u>Settings.</u>

# 4 Recovering Your Backed Up Data

# 4.1 Using the Recovery Menu

The Recovery Menu provides you with options at a fine granularity for selecting which user to restore or export.

### To recover your backed up data:

1. Click Recovery from the Navigation Panel. The *Restore* & *Download* page is displayed with all your active-backup account details.

Active	Backup Accounts	
Search	h	
2	Microsoft Groups / Teams   1 group / team test	
3	Microsoft OneDrive   18 sites Test	
B	Microsoft Exchange   30 accounts Test	
xx	Box   8 accounts Test	
G	Google Workspace   3 google accounts cloudrein.com	
3	Microsoft SharePoint   13 sites	

- 2. Click the Box backup task from which you wish to recover the data.
- 3. The *Restore or Download* Box page is displayed.

3			bob.smith@ca4software.onmicrosoft.com Bob Smith Log O

orgs.	Restore Download		
	ALC: NOT THE REAL PROPERTY AND A REAL PROPERTY.		

This page displays all your Box domains backed up with the details such as user name, First Backup date, Last Backup date, and available Actions. Your backed-up data is ready for download, from this page.

- You can filter the list using the following options:
  - Filter by statuses such as All, Active, In Process, Not Active, Scheduled, Paused, Backed-up in another task, or Archived, from the drop-down list.
  - Or: search by part or all of the user name.
- Click the arrow icon at the end of the line of the user which you want to restore or export (download).

The Restore or download Box page is displayed.

### **Box Backup and Restore User Guide** Recovering Your Backed Up Data

Restore Download		

- 3. Alternatively, you can click the magnifying glass in the Action column to drill down into the snapshot and view the structure of the backed up data. There you can select one or more items for recovery.
- 4. Once you select a snapshot (if you wish to recover all the data in the backup), or one or more items (if you wish to recover only selected items), the **Restore** and **Download** buttons become available.

### 4.1.1.1 Restore

If you click **Restore**, the restore confirmation window appears, asking you about the following:

- Do you want to restore to another folder or account? If so, provide the new location information.
- Do you want to perform a non-destructive backup, where the restored files are added to a new folder? The folder name indicates that they have been restored.
- Or do you want to perform an in-place restore? There are two options:
  - **Replace**: The restored content will be located in the same folder as the existing content, not in a separate folder that is created when you choose non-destructive restore. Deleted items and folders will be restored from the snapshot. Existing items will be overwritten with the snapshot version.

Use this option: to restore or repair deleted / modified items

Bypass: The restored content will be located in the same folder as the existing content. Deleted items and folders will be restored from the snapshot. Existing items will be skipped.
 Use this option: to restore deleted data.

### **Box Backup and Restore User Guide** Recovering Your Backed Up Data

	Search	~	
		Press V for advanced search	
	Continue		

3. Click **Continue**. The *Restore or download* page is displayed, showing the search results with details such as Type, Name and Date. The details columns are different for different types of restored items.

- 4. Select items you would like to restore or download. When at least one item is selected, **Restore** and **Download** become available.
- 5. Follow the instructions in the <u>Restore</u> or <u>Export/Download</u> sections to complete the recovery process.

# 4.2 Tracking Recovery Tasks on the Jobs Page

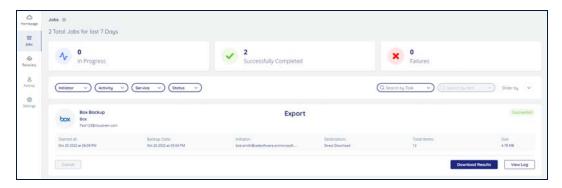

The Jobs page provides you with both high-level and drill-down views of your restore and export jobs over the last seven days.

**Note:** To see the status of your Backups, click the name of the backup from the *Homepage*.

From the Navigation pane, click Jobs.

### 4.2.1 High-Level Summary

The top portion of the Jobs dashboard summarizes how many of your jobs are in progress, how many have successfully completed, and how many have partially succeeded or failed over the past 7 days.

To see a list of jobs that have any of these 3 statuses, click on the status, and your results will be filtered accordingly

### 4.2.2 Filtering

The next section allows you to filter by numerous criteria:

- Initiator: Who initiated the backup / restore?
- Activity: Filter by restores or exports.
- Service: Filter by one of the following services, such as:
  - Google Workspace
  - Google Shared Drives
  - Salesforce
  - Box
  - Dropbox
  - Google Account
- **Status**: Filter by one of the following:
  - In progress
  - Succeeded
  - Partially succeeded
  - Failed
  - Pending
  - Canceled
- Search by Task: Filter by a task, such as:
  - Box
  - Dropbox
  - Google Workspace
  - Salesforce

If you choose to filter using a particular service, then you can focus on a specific item in the search bar. You can also order by:

- Latest First
- Oldest First

4.2.3

**Description of Each Job** 

- The rest of the screen provides a detailed description of each individual job that you ran.
  - **Type of Job**: Export, or Restore this appears as a large title within each job description.
  - Name, Service, and Account of the job.
  - Start date, backup date, initiator, destination, total items backed up or restored, and the size of the file(s).
- Cancel enables you to stop a job that is in progress.
- Download Results enables you to download a zip file with your recovery data.
- View Log redirects you to the System Activity page, which displays your account activity with details such as Activity, Date and Time, Service, Sub-Service, Status, Task Name, and Item.

O Homepage	Activity Activity > System activity

# 5 Compliance

# 5.1 Delete Backed Up Data: GDPR's "Right to Be Forgotten" Option

The way to delete data items - emails and files - from a CloudAlly backup is to enable the GDPR (General Data Protection Regulation) "right to be forgotten" option.

To enable the ability to delete backed up items:

- 1. Request from CloudAlly support that they enable the GDPR delete button for you. They will ask you for the name of your account, and the service for which you would like to enable this.
- 2. From the Homepage, click **Recovery**.
- 3. Click the service that contains the item you would like to delete.

Note: It is not possible to delete an entire folder, only one or more items.

4. Click the arrow at the end of the row of the user that contains the item you would like to delete.

& Download >Box Backup			
sted below are the users within your Box us	ers ready for restore and download.		
USER	FIRST BACKUP	LAST BACKUP	ACTION
Search	× All ×

Stecovery V Backup Now	Sackup Now 1	Recovery     P Backup Now     I	Recovery Sackup Now 1	( Recovery ) ( P Backup Now ) 1
	Dropbox Business //	box Box /	Salesforce Sandbox A	Google Shared Drives
	Succeeded	Succeeded	Succeeded	Succeeded
	Total Users / Team folders 81	Total Users 11		Total Drives 28
	Active Users / Team folders 81	Active Users 11	Total Seats 4	Active Drives 28
	Total Size 103.02 GB	Total Size 97.15 GB	Total Size 24.72 MB	Total Size 2.68 GB
	Last Snapshot 7 hours ago	Last Snapshot 12 hours ago	Last Snapshot 14 days ago	Last Snapshot 9 hours ago
	Next Backup In 17 hours	Next Backup In 12 hours	Next Backup In 4 hours	Next Backup In 15 hours
	S Recovery ( Backup Now )	Recovery     (     Backup Now     I	@ Recovery ( Backup Now )	G Recovery ( Backup Now )

- 2. Click the Box icon from the list or enter a keyword in the Search field to find a specific task. The *Box Backup* page is displayed.
- 3. The *Box Backup* page displays all the Box users available for the administrator account you are using. The page displays the details such as User Name, Email, Status, Backup Size, Last Backup Date, and available Actions. It also provides the means to filter the users and control the associated backup tasks.

#### 6.1.1 Filtering Using Names or Statuses

You can filter using the following options:

- Enter a search phrase in the Search by field to view all the users with the entered keyword.
- Filter by statuses such as Not Active, Scheduled, Success, In Process, Failed, Paused, Archived, or Partial.

#### 6.1.2 Filtering Using Tags

CloudAlly provides you with the means to add extra metadata to your backed up data in the form of "tags." For example, you might want to denote all users that belong to Managers, or all those that belong to the Sales Team.

You can use tags to quickly filter your list of users.

The **Tags** option is used to search for existing tags. By default, it is not active. To activate **Tags**:

- 1. Select at least one user.
- 2. Click **Tags**, and the following screen appears.

3. To search your existing tags, enter a tag name in the **Search tags** field.

#### 6.1.3 Creating a New Tag

#### To create a new tag:

1. Click **Create New Tag**. A pop-up appears where you can enter a new tag name.

New Tag		
Please enter a new tag name		

2. Enter a new tag name and click **Create.** 

#### To apply tags to your users:

- 1. Select at least one user.
- 2. Click Tag.
- 3. Choose the desired tag for your user s.
- 4. Click **Apply**.

## 6.1.4 Filtering by Tag

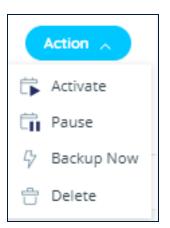

In the **Filter by tag** field, enter a tag name. The accounts, teams or sites with those tags will appear.

O Homepage	Full MS Exchange Backup Homepage > Full MS Exchange Backup							
jobs								0
© Recovery	3 of 12 Totol Mailboxes Active Pearet Arthurd						٢	(+)
Activity Settings	C Search by account name or email	) (= (MangerX)			Stotus	Y Togs	-) (Action	
	Melibox	© Email	© Tags	Status 0	Backup Size 💈	Last Backup	Actions	
	Asata Brown	Agata.Brown@ca4software.onmicrosoft.com	Manager		703.74 KB	one day ago	60	~
	Bob Smith	bob.smith@ca4software.onmicrosoft.com	Manager		6.58 MB	one day ago	9 0	×
	Jacob Anderson	Jacob.Anderson@ca4software.onmicrosoft.com	(Manager)		551.02 KB	one day ago	6 0	~

#### 6.1.5 Actions

To perform actions on a user, select at least one of them on the list, and the **Action** button will be enabled. Click **Action** to see the following drop-down menu:

- Activate enables backup in all the selected users.
- Pause halts the backup procedures on the selected users.
- Backup now starts the backup immediately. The backup in this case starts as soon as a backup processing machine is available, which may take several minutes.
- **Delete** removes the backup task and backup data for the selected users.

## 6.2 Viewing Backup Statistics with the Drill-down Feature

Select the desired user, and click the downward-facing arrow at the end of the row. This option enables you to drill down to the backup history dashboard.

When you drill down, you can find a diagram describing past backups, and a brief summary of the backup outcomes.

lambik	ł					cloudrein.com			8	tanagur)	<ul> <li>Success</li> </ul>	180.	88 MB	one hour ago	Cii 9	^
06/1	0	07/10	ດໜ້າວ	09/10	10/10	11/10	12/10	13/10	14/10	15/10	าณ่าอ	17/10	18/10	19/10	20/10	
Bo Items: 2			Succe 20/10/2022 at 05	55 Θ												

The diagram depicts the number of items backed up each day. By hovering your mouse over a column in the diagram, you can see the number of items backed up in each service. This number includes all new and changed items, so it may be greater than the total number of items in the backup. You can select the date range of the chart with the sliders underneath it. The maximum range displayed is 30 days.

The summary tiles below the chart provide at-a-glance information about the backup: for each sub-service, they display the total number of items in the backup, the date of the last backup, and the outcome.

# 7 Managing Your Account

This section guides you through the processes of managing your Account activity, account settings, password, setting up two-factor authentication, and managing users.

# 7.1 Viewing Account Activity

The Activity menu enables you to view your account activity, including System Activity and Security Audit. Click *Activity* on the navigation pane.

This page enables you to filter and search the list of backup tasks, export the list as a CSV file, and view more details on any backup task. The latter can be achieved by clicking the Info icon. The Info pop-up displays the backup execution time, the size of the stored data, and the number of entities, and the summary of the backup execution:

0	🕗 Backup	
0	Execution Time: Data Size:	Mar 1 2022 12:29 PM 5.97 MB
0	Description:	Mail Completed (adam.smith@onmicrosoft.com, 80 items, 720 Bytes delta data size, 0 minutes.)

**Note:** Administrators can grant users permission to see the *System Activity* page by clicking **Settings > User Management**, and checking "View Account Activity."

## 7.1.2 Security Audit

The *Security Audit* page provides information about all the security-related actions that have happened in your account. The user activity that is displayed includes:

- Backup deleted
- User deactivated
- Settings changed
- Sign-in success or failure
- Permissions changed
- Notifications.

The page includes the date of the event, the type of activity, the service involved, the status of the activity, the account performing the activity, and the description.

The Security audit table can be exported as a CSV file by clicking Export.

**Note:** Administrators can grant users permission to see the *Security Audit* page by clicking **Settings > User Management**, and checking "View Security Audit Page."

# 7.2 Managing Your Account Settings

The *Settings* page provides you with tools to control both your account and the accounts of users whose external credentials are linked to your account. The Settings section consists of the following sub-sections:

- Account
- User Management
- Security
- Notifications

You can find more details on each of the Settings pages below.

∟ Homepage	Settings			
]obs	Account	User Management	Security	Notifications
G Recovery	ź	2	$\bigcirc$	Ô
Billing	Manage account settings	Manage other users	Manage security settings	Manage system notifications
<u>Activity</u>				
() Settings				

## 7.2.1 Account Settings

This page allows you to change the name of your account and the email address. You can only change the Data Center Location by contacting CloudAlly support. Finally, this page also allows you to terminate your account.

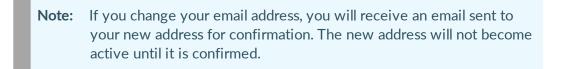

#### To update or change your account details:

1. From the Navigation Panel, click **Settings** and then click **Account**. The *Settings* > *Account* page is displayed.

O Homepage	Settings Settings > Account	
] Jobs	Account Name:	Bob Smith
© Recovery	Email:	bob.smith@cs4software.onmicrosoft.com

	To terminate your	CloudAlly subscription, click on the REMOVE ACCOUNT button.
	This includes removing	all your data at CloudAlly
	I approve the remov	al of my data from Cloudklly
		Remove Account

#### You can update the Account Name and/or Email.

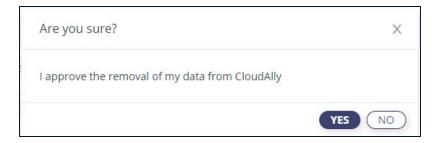

Click **SAVE**. The following screen will appear. If you did not receive the confirmation email, click **Resend Email Confirmation** 

O Homepage	Settings Settings > Account				
Recovery	Account Name:	Bob Smith			
Billing	Email:	Bob.smith@ca4software.onmicrosoft.com If you change your entail address, we will send an entail to y	New Email • Waiting for Approval		Discard
Security		Note: Confirmation was sent to your new	email username@company.com and	is waiting for your approval.	Resend Email Confirmation
© Settings	Data Center Location:				
					Save Cancel

## 7.2.2 Canceling Your Subscription

#### To cancel your subscription:

- 1. Check the box for "I approve the removal of my data from CloudAlly" field and click **REMOVE ACCOUNT**.
- 2. The Are you sure? pop-up window is displayed with a confirmation request.
- 3. Click **YES** to confirm the cancellation.

**Note:** To prevent mistaken deletions, there is a grace period of 7 days after your account is terminated. After the grace period, if your account is not reactivated, all data from all your backups will be deleted.

# 7.3 User Management

The page provides tools for fine-level control of the permissions and access levels of your users.

tings > User Management				
BETA) End User Recovery				
nd User Recovery allows all users in your M	icrosoft domain who ha	ve Exchange backups, to log in with t	heir Microsoft credentials, access their own b	backups, and recover their data.

## 7.3.1 Adding a New User

System Administrators, both those who logged in to CloudAlly with a username and password, or with Microsoft credentials, can add new users.

Click + Add new user to create a new user and start the configuration procedure for that user, or the pencil icon to edit an existing user's settings.

- Enter the new user's email address.
- Select the Authentication Type: Azure, Email, Google+, or Okta.
- Select the permissions role for the user. Selecting the role "Administrator" enables permissions to all services and operations. Or, you can selectively choose which permissions to grant from the list of services:

O Homepage	Settings Settings > User Management	L> New user				
Jobs	Email:	Alex.Douglas@onmicrosoft.com	Type:	Email		¥.)

# 7.4 Security Settings

The Security Settings page enables you to:

Personal Password Policies	
Change your CloudAlly account password	Change password
You can also use Two-Factor Authentication	Activate 2FA

- Update your password
- Set up two-factor authentication

You can also enforce certain security policies for your users' accounts.

Enforce The Following Password Policies On All Users	
Enforce Two-Factor Authentication on all users	
Password Expiration: O Password expires after (days): 90	
	Cancel Sove

- With the Enforce Two-Factor Authentication option, you can make twofactor authentication mandatory for all the users in your account.
- By setting the **Password Expiration**, you can enable the password expiration option for all your users – you will be also be asked for the number of days before the users' passwords expire.

## 7.4.1 Changing Your Password for Credential-Based Authorization

You can change your existing account password by performing the following procedure:

- 1. From the **Settings** >**Security** page, in the Personal Password Policies panel, click **Change Password**.
- 2. The Change password pop-up is displayed.

Change password	:	×
Current Password:		
New Password:		
Confirm New Password:		
	SAVE	)

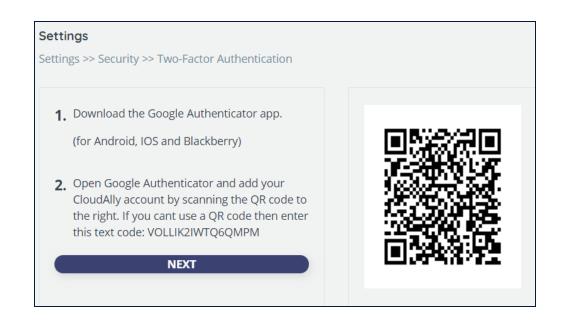

- 3. Enter the current password in the Current Password field.
- 4. Enter the new password in the New Password field.
- 5. Re-enter the new password in the Confirm New Password field.
- 6. Click SAVE. You can now use this password to access your account.

### 7.4.2 Two-Factor Authentication

Two-factor authentication provides additional security to your account and your backup data.

To enable two-factor authentication:

1. Click Activate 2FA. The Two-Factor Authentication page is displayed.

- 2. Download an Authenticator app, depending on your platform.
- 3. Open the Authenticator app and add your account by scanning the QR code provided in the web application.
- 4. If you cannot use a QR code, then enter the text code provided in the web application.
- 5. A six-digit code is generated.
- 6. Click **NEXT**.
- 7. Enter the 6-digit code that the application generated.
- 8. Click **ENABLE** to complete the process of activating the Two-factor authentication.

From now on, every time you sign in to your Account, you are asked to enter a 6digit code from your authentication app, after you click **SIGN IN**. Click **VERIFY** to verify the code and access the application.

## 7.4.3 SAML

The Security Assertion Markup Language (SAML) is an open federation standard that allows an identity provider (IdP) to authenticate users and then pass an authentication token to another application known as a service provider (SP).

CloudAlly supports Okta as its SAML provider.

There are two steps to setting up Okta so that you can use it to log in to CloudAlly:

- Setting up CloudAlly in the Okta Application
- Setting up Okta in the CloudAlly application

## 7.4.3.1 Setting up CloudAlly in the Okta Application

 In the Okta application, click Applications > Applications > Browse App Catalog.

okta		Q Search
Dashboard	×	
Directory	Ŷ	Applications
Customizations	Ŷ	Developer Edition provides a limited number of apps.

Becovery Activity Settings	SAML provider	
	http://Bo.smith@deta.com/home123454789_cloudallysam20_1/Oos2retpeid50927h09va URL to the SAML Identity Provider Metadata file. Upload File U. Choose File No file shoen.	Activate

- 5. Click Activate.
- 6. Read the "Are you sure you want to activate SAML Authentication with Okta" message in the next window, and click **Confirm**.

Are you sure you want to activate SAML Authentication with Okta? Activating SAML Authentication will disable Email & Password Authenticatio	X
Please verify all the users in this account are also configured in Okta, so the to login to CloudAlly after SAML activation.	
Cancel	Confirm

After clicking **Confirm**, the Activate state changes from **Email & Password: Active** to **SAML: Active**.

#### 7.4.4 IP Restrictions

Need fine-grained access control of your endpoints? You can restrict access to the Portal based on the users' IP addresses. This is especially helpful to enforce security policies and prevent unauthorized access by limiting backup/restore requests to company-approved IP addresses, such as an office IP, or a particular VPN.

#### **Setting Up IP Restrictions**

To enable IP restrictions in your account, first create the list of trusted IP addresses.

#### **IMPORTANT!**

It is strongly recommended to use this feature only if you have a static IP address, to prevent users from being locked out.

1. In the *Settings* panel, click **Security**, and then **IP Restrictions**.

3		bob.smith@ca4software.onmicrosoft.com Bob Smith Log Out
Homepage	Settings Settings > Security	Email & Password: Active
jobs	Possword IP Restrictions SAML	
© Recovery	IP Address Restrictions Settings	Your IP Address: 79.182.47.197

# 8 Managing Subscriptions and Payments

# 8.1 Subscribing to CloudAlly

Once the trial period has ended, you need to subscribe to CloudAlly to access and manage your backups, otherwise your backed up data will be deleted.

#### To subscribe to a plan:

1. Click the **Subscribe** link displayed in your account. Alternatively, you can click the **Billing** option of the Navigation Panel.

The *Review Billing* page is displayed with the option to select either **MONTHLY** or **ANNUAL** billing options.

**Note:** You can subscribe before the end of the trial period, and the payment period will start after the trial period is over.

2. Click **MONTHLY** or **ANNUAL**, depending on your preference.

You are redirected to the *Payment Details* page. Fill in the billing and credit card details to finish the subscription process. Refer to <u>Payment Details</u> for more information.

## 8.1.1 Monthly Subscriptions

When you subscribe to a monthly plan, the credit card that you registered in the *Billing > Payment Details* page will be charged the amount that you owe.

CloudAlly's billing is handled by a PCI-compliant payment processor.

To finalize your subscription, enter your credit card details and general billing information, and then click **Subscribe**.

The initial payment will be charged at the end of your 2-week trial period.

A receipt will be emailed to you each month after you are charged.

If CloudAlly is unable to charge your credit card (e.g., because it has expired), you will be notified by email. Additionally, a message will appear in the application that

you need to go to the *Billing Status* page so you can review your billing details, and then update your credit card information if necessary.

**Note:** The billing status is usually updated within a few minutes after the payment is complete. If the status has not updated after 24 hours, please contact support@cloudally.com.

	DALLY Cloud to Cloud Backup	A Payment Failed; Unable to charge your credit card.	Dipleted on Nov 07, 2022	bob.smith@ca4software.onmicrosoft.com Bob Smith Log Out 🕒
Homepage	Billing Billing > Status			

**Note:** The monthly payments are processed automatically once you provide the required information in the Payment Details section, and it has been verified that your credit card is valid. To disable automatic payment processing, please contact CloudAlly support. Instead, you will start receiving monthly invoices for the payments.

## 8.1.2 Annual Subscriptions

When you subscribe to an annual plan, you will receive a confirmation message that your request has been submitted, and then CloudAlly support will send you an email, asking that you confirm your annual subscription request.

Once you have confirmed, CloudAlly will email an invoice to you, payable in 30 days by credit card, PayPal, or bank transfer.

After the initial payment, CloudAlly will send you an invoice 30 days before your payment is due, in 11 months. You will also be reminded that your annual subscription is due online:

**Note:** The billing status is usually updated within a few minutes after the payment is complete. If the status has not updated after 24 hours, please contact support@cloudally.com.

	Cloud to Cl	oud Backup Ø Reminder: Please pay yo	our annual subscription.	Classed on: Nov-D4, 2022 X	bob.smith@ca4software.onmicrosoft.com Bob Smith	Log Out 🖯
O Homepage	Billing Billing > Status					

Should you fail to make your annual payment, you will be reminded with a message like this:

After you finalize your subscription, the *Billing > Payment Details* page displays additional billing management options and provides a brief summary of the payment information for the current period and the next payment date.

# 8.2 Payment Details

⊖ Homepage	Billing Annual subscription, Renewal Date: Aug	8th 2022

The Payment Details page contains the information used for billing.

## 8.2.1 Monthly Subscriptions

If you have chosen a monthly payment plan, you can update your credit card and billing details here:

- Credit Card Details					
Card Number:	CREDIT: 3000-3000-3000-1111 (12/2023)				
				ADD NEW CAR	ACTIVATE CARD
- Billing Details					
Currency:	ELIR		Tide:	Mr	
* First Name:	Bob		* Last Name:	Smith	
Billing Email:	bob.smith@ca4software.onmicrosoft.com		Company Tax Id:	12345	
* Company Name:	12345		* Address Line 1:	123 Main Street	
Address Line 2:			Address Line 3:		
Country:	United Kingdom	<i>Q</i> .	State:		
Cityc	Anytown		Zip Code/Postal Code:	12345	
* Phone number:	2011234567		Email Invoice/Receipt:	Link      Attachment	
Payment Day:	4				

## 8.2.1.1 Add New Card

The **ADD NEW CARD** option enables you to define your card information for a monthly subscription payment.

Billing						
Billing >> Payment details						
Nonthly subscription, next	t payment: Dec 13th 2020					
~ Credit Card De	tails					
Card Number:	undefined: XXXX-XXXX-XX	XX-444 🗸				
				ADD NEW CARD		RD Delete card
				ADD NEW CARD	ACTIVATE CA	Delete card
~ Add new card o	details					
Card Holder's Name:	Card Holder's Name:					
Card Number:	Card Number	MM / YY	CVV			
						ADD NEW CARD

#### To create a new payment method:

- 1. Click ADD NEW CARD.
- 2. Enter the card details such as Card Number, CVV, Card holder's name, and card expiry date.
- 3. Click ADD NEW CARD.

The new card information is saved and activated, and you can use this card.

#### 8.2.1.2 Change Payment Method

#### To change your existing payment method:

- 1. Click the drop-down list and select the payment method from the Cards Number drop-down list.
- 2. Click the payment method from the list (the screen shot below depicts choosing a different credit card).
- 3. Click **ACTIVATE CARD** to set the selected card as the preferred payment method.

Billing		
Billing >> Payment details	5	
Monthly subscription, ne	xt payment: Dec 7th 2020	
~ Credit Card De	etails	
Card Number:	CREDIT: XXXX-XXXX-XXXX-5048 (1 🗸	
	CREDIT: XXXX-XXXX-XXXX-5048 (12/2025)	
	CREDIT: XXXX-XXXX-XXXX-1111 (12/2023)	ADD NEW CARD ACTIVATE CARD Delete card

The details section displays billing information such as Currency, Title, Name, and Billing email.

4. Below, there are more fields in the Billing details section. The Company Tax ID field indicates your company tax ID. (This is mandatory for Israeli companies.)

**Note:** Due to Value-added tax (VAT), Israeli companies must include their Tax ID. Therefore, the Company Tax ID field is mandatory for Israel, and if this field is not completed, our company will not be able to provide you with backup services.

~ Billing Details			
* Currency:	USD	Title:	~
* First Name:		* Last Name:	
* Billing Email:		Company Tax Id:

			UPDATE BILLING DETAILS

- 5. Update the required fields. The fields marked with the \* symbol are mandatory.
- 6. Click UPDATE BILLING DETAILS.
- 7. The updates are saved.

You can choose whether you want to receive the Invoices or Receipts as a link or as an attachment to the email.

Note: You can change the billing currency by contacting CloudAlly support.

8.2.2

If you have chosen an annual payment plan, you can update your billing details here. When you are done, click **SAVE**.

Activity	Service	Total Qu	antity	Billable Quantity	Unit Price	Total Amount	
Settings	MS Exchange (365)	é malibo	ves.	6 mailboxes	\$37.80	\$226.80	

When your subscription amount becomes due, the Billing Status page displays the following information:

- **Issue date** the date the invoice was issued
- **Status** Paid, Due or Overdue
- **Due Date** the date by which the invoice must be paid.
- Effective Date the date the subscription period begins.
- **Total Amount** amount owed.
- **Download Invoice** Click this to download a PDF copy of your invoice.
- **Email Invoice** Click this to send an invoice to your email address.
- **Pay Invoice** Click this to directly pay the amount owed online.

## 8.5 Billing Notification Messages

Administrators can define whether individual users will see the Billing Notification Messages on their screens (e.g., Payment Due, Payment Overdue, Payment Failed).

To turn notifications on or off:

- 1. From the Navigation Panel, click **Settings > User Management**.
- For an existing user, click the pencil icon next to the user's name.
   For a new user, the notification options will appear when you define the new user's details.
- 3. Click View billing notification messages on or off.

# 9 Helpful Resources

# 9.1 About CloudAlly

Founded in 2011 as one of the world's first cloud-to-cloud backup services for Google Apps and Salesforce, CloudAlly led the industry with the first commercially available Microsoft cloud backup in Q1 2014. ISO 27001 and HIPAA certified CloudAlly adheres to industry-standard best practices for information security management, including EU-GDPR compliance.

# 9.2 Knowledge Base

Search through articles in our Knowledge Base at <u>https://support.cloudally.com</u> to find answers to the most common user questions.

# 9.3 Support

Support - If you have any question or need further help, do not hesitate to contact us via email at <u>support@cloudally.com</u>. or visit our customer support hub: <u>https://support.cloudally.com</u>

## 9.4 Privacy

CloudAlly takes privacy seriously. Read our Privacy Policy at <a href="https://www.cloudally.com/privacy-policy">https://www.cloudally.com/privacy-policy</a>

# 9.5 Security

CloudAlly provides a secure online backup solution with internationally recognized accreditation for information security management. Read how we protect your data at <a href="https://www.cloudally.com/resources/secure-saas-backup/">https://www.cloudally.com/resources/secure-saas-backup/</a>

# **10** Support Pages

The Support option at the bottom of the Navigation Panel redirects you to our support hub. In the support hub, you can find articles covering some of the most common questions and providing instructions.
