1 Preface

1.1 About This Guide

Thank you for selecting CloudAlly for Google Workspace. Relax! All your Google Workspace data is now securely protected with easy recovery from data loss. CloudAlly comprehensively backs up your data on industry-leading AWS S3 storage. Our product's ethos is to provide feature-rich backup and recovery with security, ease of use, and flexibility woven in.

CloudAlly is cloud-native, a full cloud-to-cloud solution. No installation is required, the setup is hassle-free, backup is easy, and there are flexible recovery and export options. Read on for instructions about how to activate and manage your backups, restore your data by keyword, from any point-in-time, and at any granular/hierarchical level, export your backups to your own storage, activate summary/exception reporting, and set up MFA and other helpful features.

Questions or comments? Please contact us at support@cloudally.com or search our Knowledge Base at https://support.cloudally.com/hc/en-us.

1.2 Audience

This guide is intended for individuals who administer CloudAlly for Google Workspace.

1.3 What's in This Guide

This guide is organized to help you find the information you need to manage CloudAlly for Google Workspace. It is divided into functional parts intended to support you as you manage your environment:

- Creating and Accessing Your Backup Account
- Backing Up Your Data
- <u>Recovering Your Backed Up Data</u>
- Filtering and Viewing Drill-Down Details
- Managing Your Account
- Managing Subscriptions and Payments

2 Creating and Accessing Your Backup Account

2.1 Prerequisites

To administer backups for the Google Workspace environment, the following is required:

2.2 Sign Up/Sign In from the CloudAlly Home Page

- 1. In your Internet browser, open cloudally.com and click Login.
- 2. Click **Customers**. The Sign In page is displayed.

	Free Stat
Sign In to your Account	
Email	
Panaword	
Earnaturea Annovatell Ren in	
G Sign In with Google	
11 Sign in with Microsoft	
Sign Is with Okta

	G Sign up with Google	
	Sign up with Microsoft	
	By creating an account, you agree to our <u>Terms of Use</u> and <u>Privacy Policy</u> . We'll occasionally send you account related emails.	

- 4. Complete the form, and then click Sign up.
 - **Note:** CloudAlly gives you the choice of numerous AWS data centers available in the dropdown menu "Location." These include locations in Australia, Canada, EU (France, Germany, and Ireland), US, UK, and Japan. The ability to choose from a wide range of data centers helps our customers comply with local data sovereignty laws that regulate the physical location and movement of data. In addition, we also offer a "Bring Your Own Storage" (BYOS) option on request. This allows you to backup sensitive data in your own AWS S3 buckets, S3 compatible storage service, Azure, or Google Cloud Platform. Please contact support@cloudally.com for more information.
- 5. Your trial account is created, and an email containing your activation link is sent to your email address. Click on the activation link contained in the email you received to activate your account. If you sign up with Google, Azure, or Okta, the activation link will not be sent to you.
- 6. Once your account is activated, you are redirected to the CloudAlly *login* page. Enter your email address/password and click **Sign In** to login and access your account.

You can also enable Two-Factor authentication to provide additional security. For more information, see Managing Your Account .

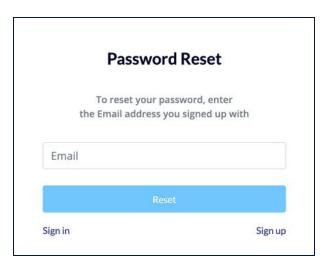

2.3 Resetting Your Password

If you do not remember your password, you can easily reset it using the **Password Reset** function.

1. On the sign-in page, click **Forgot your password?** to start the process of resetting your password.

	Sign In to your Account Don't have an account? Sign up
bob.smith@	Dca4software.onmicrosoft.com
Password

Confirm New Password	Ø
Save	

6. Enter your new password in the **New Password** field and again in the **Confirm New Password** field, and click **Save**.

After resetting the password, you will be directed back to the *Sign In to your Account*.

Page 8

3 Backing Up Your Google Workspace Data

Google Workspace lacks the daily backup and archiving process necessary for you to restore data after it has been manually or automatically removed from the recycle bin. CloudAlly's automated daily Google Workspace backup ensures that you can both quickly recover data from any point in time as well as export your archives for local storage.

With a few simple clicks, you can activate backups for all or selected users.

3.1 Creating a New Backup Task

To create a new backup task:

1. Sign in to your account, or if you are already signed in, click the **Homepage** option in the Navigation Panel.

@ Settings	Automatically activate new users 0				
		Backup Frequency		Backup Hour (UTC)	
	Retain auto-archived backups for days before deleting.	Daily		3:00	

On this page, you can adjust the backup settings and activate backups for the Google Workspace users. See the sections below for the detailed procedures.

3.2 Configuring Backup Settings

To access the configuration screen, click the settings icon on the top right side of the screen.

C Homepage	Google Workspace 🖋				
Jobs					۰
Recovery Activity	Backup Settings The automatic addition/deletion of an account, site, domain, table or drive co	an affect your monthly or annual billin	g amount		
	😔 Index all data for Search 0	3	Backup Datacenter	Retention Period	0
Settings	Automatically activate new users	0 0	Europe (instand)	Unlimited	
		•	Backup Frequency	Backup Hour (UTC)	
	Retain auto-archived backups for days before deleting ()	9 0	Daily	3:00	V.
				Cancel 50	Ne

The set of options on this screen enables you to select the backup settings for the user.

- 1. You can change the name of the backup task by clicking \checkmark .
- 2. The icon to the right of the Google Workspace logo displays whether the application was able to connect to the specified Google Workspace account. If the authentication token granted for the application becomes invalid (e.g., it expires due to inactivity because you put the backup task on pause for a long time), the green Connected icon changes to the red Disconnected. To grant the application a new token, click on the icon to open the authentication dialog, and repeat the authentication process.

- 3. By default, the "Index all data for Search" option is selected, which enables CloudAlly to provide you with its granular search and restore functionality. In the process, your data is temporarily decrypted for a brief period of time, and then re-encrypted once the index is built. If this goes against your company policy and you would like to disable automatic indexing, please contact support@cloudally.com.
- 4. The Automatically activate new users option instructs the system to detect new users, and activate them automatically.
- 5. Backups are automatically archived when an entire site is deleted. The **Retain auto-archived backups** option allows you to retain them for a specified number of days, after which they will be deleted. Otherwise, the backups will be retained indefinitely.
 - **Note:** The **Backup Data Center** and **Retention Period** fields are "display only," and their values can't be changed here.
- 6. The **Backup Data Center** field displays the Data Center location you selected when you signed up with your registration.

The **Retention Period** field displays whether a retention period has been set up. By default, we provide unlimited retention of your daily backups for as long as you maintain your account subscription. You can override this default and specify a retention period in days, months, or years by contacting CloudAlly support. Backups older than the retention period specified will be automatically deleted.

Note: Your backup storage location cannot be changed once it's been set during the account setup process. Contact CloudAlly support if you need to move backups to a different geographic region, or if you'd like more information on our "Bring Your Own Storage" (BYOS) option.

7. Backup Frequency and Backup Hour

a. Click the drop-down list adjacent to the **Backup Frequency** field and select how often you would like the backups to occur. The available options include:

- i. Daily
- ii. Every 3 days
- iii. Weekly
- b. Click the drop-down list adjacent to the **Backup Hour (UTC)** field and select the backup hour. Click **Save**.

Note: Adding more frequent backups is possible via a support request.

3.3 Activating Your Backups

Once you have configured your backup settings, you need to **Activate** them, in order for them to begin backing up your data.

1. Scroll down to the bottom of the screen where all of your users are listed.

© overy	4 Total Users							٢
8 outy Dimps	Active Faund Archived	(# Filter by tag			Stoty	s v Togs	Action	
	□ - Username	© Email	t Tags	Status 0	Backup Size	Last Backup	Backup

					-			

4. Alternatively, if you prefer to perform an immediate, on-demand backup, click **Action** > **Backup Now**.

3.4 Removing a Backup

You can delete individual user backups or the entire backup service from your account if you do not want to use them further. The following sections guide you through the process of removing backup services and individual user backups.

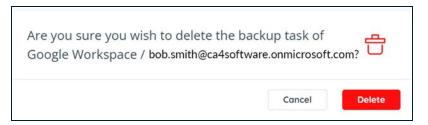

3.4.1 Removing a Backup Task

To remove a backup task for a service, on the *Homepage*, click Menu > \bigcirc **Delete Backup** adjacent to the backup task you want to remove.

° G	Google Workspace P Google Warkspace Succeeded	Total 🛛	Active 🕲	Total Size 0 MB	Last Snapshot Never	Next Backup In 17 hours		C Resurse
•	Google Drives // Google Shared Drives Succeeded	Total 🛛 42	Active 🕲	Total Size 0 M8	Läst Snapshot Never	Next Backup In 18 hours	0 H	Hackup Pause Backup Delete Backup

The **Confirm Delete** pop-up window is displayed with a warning message.

Click Delete. The selected backup service is removed from your account.

To prevent mistaken deletions, there is a grace period of 7 days after your backup is deleted.

3.4.2 Removing an Individual user

To remove an individual user:

- 1. Click the backup task from which you want to remove the user. The backup task settings page is displayed.
- 2. Add a check next to the user that you want to remove. Click **Delete** in the **Actions** menu.

very izy	4 Total Users Active Paused Arthreed						٢

	Charles Wilson	Charles.Wilsons@ca4software.or	microsoft.com	Not Active	0 Bytes	Never	6

3. A pop-up window is displayed with a list of users selected for removal. Click **Delete.** The selected users are removed from your account.

To prevent mistaken deletions, there is a grace period of 7 days after your backup is deleted.

3.5 Usage Reports

In order to provide greater clarity to you about which users CloudAlly is backing up, you can export a CSV file that lists all of the entities that were backed up, including the status of each entity (active, inactive, or archived).

To export a usage report, click the **Export** button on the top-right side of the Homepage, next to **Add Backup Task**. The report will be sent to you via email.

- 2. Click the Google Workspace icon from the list or enter a keyword in the Search field to find a specific task. The *Google Workspace Backup* page is displayed.
- 3. Click **Settings** on the top-right section of the screen to see the backup settings.

From here, it is possible to modify the fields described in <u>Configuring Backup</u> <u>Settings.</u>

4 Recovering Your Backed Up Data

4.1 Using the Recovery Menu

The Recovery Menu provides you with options at a fine granularity for selecting which user to restore or export.

To recover your backed up data:

1. Click Recovery from the Navigation Panel. The *Restore* & *Download* page is displayed with all your active-backup account details.

tive B	Backup Accounts

This page displays all your Google Workspace domains backed up with the details such as user name, First Backup date, Last Backup date, and available Actions. Your backed-up data is ready for download, from this page.

- You can filter the list using the following options:
 - Filter by statuses such as All, Active, In Process, Not Active, Scheduled, Paused, Backed-up in another task, or Archived, from the drop-down list.
 - Or: search by part or all of the user name.
- Click the arrow icon at the end of the line of the user which you want to restore or export (download).

The Restore or download Google Workspace page is displayed.

- 3. Alternatively, you can click **Q** in the Action column to drill down into the snapshot and view the structure of the backed up data. There you can select one or more items for recovery.
- 4. Once you select a snapshot (if you wish to recover all the data in the backup), or one or more items (if you wish to recover only selected items), the **Restore** and **Download** buttons become available.

4.1.1.1 Restore

If you click **Restore**, you will see different confirmation windows, depending on which sub-service you selected.

• Email, Tasks, Contacts or Calendar: You can choose which account you would like to restore the emails, tasks, contents or calendar to.

×						
*You can restore the data to a different account.						

Documents:

- You can choose to which account to restore the documents.
- You can choose whether to restore the data with the original sharing settings, or not.

Please conf	irm the restore re	equest	×				
You are about to restore items from the archive of Bob.Smith@ca4software.onmicrosoft.com							
Restore to	Bob.Smith@ca4so	ftware.onmicrosoft.com 🗸 🗸	< land

4.1.2 Restore or Download Via Item Search

- 1. Enter your search criteria for any of these sub-services:
 - a. **Email** Enter a keyword in the Search for field. For advanced search options, click and provide the following details in the drop-down form:
 - **From**: Enter a name or email address from which the email was received.
 - To: Enter a name or email address to which the email was sent.
 - **Subject**: Enter a keyword that matches any text in the email subject.
 - Date from / Date to: Enter the date range of the emails you would like to restore.
 - b. Contacts: Enter a name in the Search for field.
 - c. Tasks: Enter a keyword in the Search for field.
 - d. **Calendars**: Enter a keyword in the Search for field. For advanced search options, click and provide the following details in the drop-down form:
 - **Description**: Enter all or part of the event description.
 - Owner: Enter the user name or the email address

 Date from / Date to: Enter the date range of the calendar you would like to restore.

- 2. Click **Continue**. The *Restore or download* page is displayed, showing the search results with details such as . The details columns are different for different types of restored items.
- 3. Select items you would like to restore or download. When at least one item is selected, **Restore** and **Download** become available.
- 4. Follow the instructions in the <u>Restore</u> or <u>Export/Download</u> sections to complete the recovery process.

4.2 Tracking Recovery Tasks on the Jobs Page

The Jobs page provides you with both high-level and drill-down views of your restore and export jobs over the last seven days.

Note: To see the status of your Backups, click the name of the backup from the *Homepage*.

From the Navigation pane, click **Jobs**.

4.2.1 High-Level Summary

• The top portion of the Jobs dashboard summarizes how many of your jobs are in progress, how many have successfully completed, and how many have partially succeeded or failed over the past 7 days.

13 Total Jobs for last 7 Days									
↓ 1	Progress		V 11 Successfully Complete	d	Failures				
Initiator	~ (Activity ~) (5	ervice v Status v			Q Search by Task ->) (Q Search by	itum 💛 Order by 🗸			
G	Activity Coogle Workspace oogle Workspace oogle Workspace oogle Snithijcalioftware omicros		Expo	ort	Q Search by Task ->) Q Search by	Thin Order by V			

To see a list of jobs that have any of these 3 statuses, click on the status, and your results will be filtered accordingly

4.2.2 Filtering

The next section allows you to filter by numerous criteria:

- Initiator: Who initiated the backup / restore?
- Activity: Filter by restores or exports.
- Service: Filter by one of the following services, such as:
 - Google Workspace
 - Google Shared Drives
 - Salesforce
 - Box
 - Dropbox
 - Google Account
- **Status**: Filter by one of the following:
 - In progress
 - Succeeded
 - Partially succeeded
 - Failed
 - Pending
 - Canceled
- Search by Task: Filter by a task, such as:
 - Box
 - Dropbox
 - Google Workspace
 - Salesforce

If you choose to filter using a particular service, then you can focus on a specific item in the search bar. You can also order by:

- Latest First
- Oldest First

4.2.3 Description of Each Job

- The rest of the screen provides a detailed description of each individual job that you ran.
 - **Type of Job**: Export, or Restore this appears as a large title within each job description.
 - Name, Service, and Account of the job.
 - Start date, backup date, initiator, destination, total items backed up or restored, and the size of the file(s).
- **Cancel** enables you to stop a job that is in progress.
- Download Results enables you to download a zip file with your recovery data.
- View Log redirects you to the System Activity page, which displays your account activity with details such as Activity, Date and Time, Service, Sub-Service, Status, Task Name, and Item.

This page enables you to filter and search the list of backup tasks, export the list as a CSV file, and view more details on any backup task.

The latter can be achieved by clicking ③ in the Activity column. The Info pop-up displays the backup execution time, the size of the stored data, and the number of entities, and the summary of the backup execution.

4 Filtering and Viewing Drill-Down Details

This section explains the process of finding the exact backup data you are looking for using filtering.

4.3 Filtering by user

1. Click the *Homepage* option from the Navigation Panel. The *Homepage* screen appears.

C Search										
9 Backups									(+	Add Bockup Tosk

- 2. Click the Google Workspace icon from the list or enter a keyword in the Search field to find a specific task. The *Google Workspace Backup* page is displayed.
- 3. The *Google Workspace Backup* page displays all the Google Workspace users available for the administrator account you are using. The page displays the details such as Username, Email, Status, Backup Size, and Last Backup Date. It also provides the means to filter the users and control the associated backup tasks.

4.3.1 Filtering Using Names or Statuses

You can filter accounts using the following options:

- Enter a search phrase in the *Search by* field to view all the users with the entered keyword.
- Filter by statuses such as Not Active, Scheduled, Success, In Process, Failed, Paused, Archived, or Partial.

4.3.2 Filtering Using Tags

CloudAlly provides you with the means to add extra metadata to your backed up data in the form of "tags." For example, you might want to denote all user that belong to Managers, or all those that belong to the Sales Team.

You can use tags to quickly filter your list of users.

The **Tags** option is used to search for existing tags. By default, it is not active. To activate **Tags**:

- 1. Select at least one user.
- 2. Click **Tags**, and the following screen appears.

3. To search your existing tags, enter a tag name in the **Search tags** field.

4.3.3 Creating a New Tag

To create a new tag:

1. Click **Create New Tag**. A pop-up appears where you can enter a new tag name.

Visit our Customer Support Hub

Please enter a new tag name	

2. Enter a new tag name and click **Create.**

To apply tags to your users:

- 1. Select at least one user.
- 2. Click Tag.
- 3. Choose the desired tag for your user s.
- 4. Click **Apply**.

4.3.4 Filtering by Tag

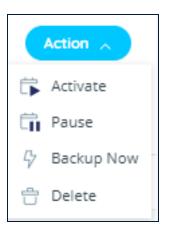

In the **Filter by tag** field, enter a tag name. The accounts, teams or sites with those tags will appear.

О Ноглерадя	Full MS Exchange Backup 🖋 Homepage - Full MS Exchange Backup

	Jacob Anderson	jacob.Anderson@ca4software.onmicrosoft.com	(Maragar)		551.02 KB	one day ago	6 0	×

4.3.5 Actions

To perform actions on a user, select at least one of them on the list, and the **Action** button will be enabled. Click **Action** to see the following drop-down menu:

- Activate enables backup in all the selected users.
- Pause halts the backup procedures on the selected users.
- Backup now starts the backup immediately. The backup in this case starts as soon as a backup processing machine is available, which may take several minutes.
- **Delete** removes the backup task and backup data for the selected users.

4.4 Viewing Backup Statistics with the Drill-down Feature

Select an account, team or site, and click the \checkmark button on the right-hand side of the row. This option enables you to drill down to the backup history dashboard.

When you drill down, you can find a diagram describing past backups, and a brief summary of the backup outcomes.

lox Test		ioxtestadmin	1@cloudiox.com		Success	1.38 MB	9 hours ago 🕅 🦻
17/10	isino 19ino 20ino	21/10	22/10 23/10 24	Jao 25ho	26/10 27/10	28/10 29/10	0 30 ¹ 10 31 ¹ 10
包 Contacts Items: \$1 ①	Success 🥝 31/10/2022 at 05:04 AM	Documents	Success 🥝 31/10/2022 at 05:04 AM	C? Calendar Items: 2 🐵	Success 🧭 31/10/2022 at 05:04 AM		Success 🥥 31/10/2022 at 05/04 AM
🖂 Emails Items: 146 🕕	Success 🤤 31/10/2022 at 05:04 AM						

The diagram depicts the number of items backed up each day. By hovering your mouse over a column in the diagram, you can see the number of items backed up in each service. This number includes all new and changed items, so it may be greater than the total number of items in the backup. You can select the date range of the chart with the sliders underneath it. The maximum range displayed is 30 days.

The summary tiles below the chart provide at-a-glance information about the backup: for each sub-service, they display the total number of items in the backup, the date of the last backup, and the outcome.

5 Managing Your Account

This section guides you through the processes of managing your Account activity, account settings, password, setting up two-factor authentication, and managing users.

5.1 Viewing Account Activity

The Activity menu enables you to view your account activity, including System Activity and Security Audit. Click *Activity* on the navigation pane.

⊖ Homepage	Activity	
Jobs	System Activity	Security Audit
Recovery		Q
Billing	Search for activities performed by the system	Check users actions performed in the system

This page enables you to filter and search the list of backup tasks, export the list as a CSV file, and view more details on any backup task. The latter can be achieved by clicking ③. The Info pop-up displays the backup execution time, the size of the stored data, and the number of entities, and the summary of the backup execution:

0	🧭 Backup	
_	Execution Time:	Mar 1 2022 12:29 PM
0	Data Size:	5.97 MB
	Description:	Mail Completed (adam.smith@onmicrosoft.com, 80 items, 720 Bytes delta data size, 0 minutes.)

5.1.2 Security Audit

The *Security Audit* page provides information about all the security-related actions that have happened in your account. The user activity that is displayed includes:

- Backup deleted
- User deactivated
- Settings changed
- Sign-in success or failure
- Permissions changed
- Notifications.

The page includes the date of the event, the type of activity, the service involved, the status of the activity, the account performing the activity, and the description.

The Security audit table can be exported as a CSV file by clicking **Export**.

5.2 Managing Your Account Settings

The *Settings* page provides you with tools to control both your account and the accounts of users whose external credentials are linked to your account. The Settings section consists of the following sub-sections:

- Account
- User Management
- Security
- Notifications

You can find more details on each of the Settings pages below.

 Homepage	Settings			
⊒ Jobs	Account	User Management	Security	Notifications
© Recovery	र्द्रे	2	$\overline{\bigcirc}$	Ô
C) Billing	Manage account settings	Manage other users	Manage security settings	Manage system notifications
<u>A</u> ctivity				
(i) Settings				

5.2.1 Account Settings

This page allows you to change the name of your account and the email address. You can only change the Data Center Location by contacting CloudAlly support. Finally, this page also allows you to terminate your account.

To update or change your account details:

1. From the Navigation Panel, click **Settings** and then click **Account**. The *Settings* > *Account* page is displayed.

O Homepage	Settings Settings > Account	
冒 Jobs	Account Name:	Bob Smith
© Recovery	Email:	bobsmith@cstontware.commicrosoft.com
8 Activity	Data Center Location :	Encape () where a
() Settings	Partner ID:	
	This includes removing	CloudAlly subscription, click on the REMOVE ACCOUNT button. gall your data at CloudAlly al of my data from CloudAlly
		Parmove Account

You can update the Account Name and/or Email.

Note: If you change your email address, you will receive an email sent to your new address for confirmation. The new address will not become active until it is confirmed.

Click **SAVE**. The following screen will appear. If you did not receive the confirmation email, click **Resend Email Confirmation**.

Discard
until it is confirmed approval. Resend Email Confirmation

5.2.2 Canceling Your Subscription

To cancel your subscription:

- 1. Select the check adjacent to the "I approve the removal of my data from CloudAlly" field and click **REMOVE ACCOUNT**.
- 2. The Are you sure? pop-up window is displayed with a confirmation request.
- 3. Click **YES** to confirm the cancellation.

Are you sure? X
I approve the removal of my data from CloudAlly
YES NO

Note: To prevent mistaken deletions, there is a grace period of 7 days after your account is terminated. After the grace period, if your account is not reactivated, all data from all your backups will be deleted.

5.3 User Management

The page provides tools for fine-level control of the permissions and access levels of your users.

Settings Settings > User Management

- Update your password
- Set up two-factor authentication

The bottom section allows you to enforce certain security policies for your users' accounts.

Enforce The Following Password Policies On All Users		
C Enforce Two-Factor Authentication on all users 🕕		
Password expiration: Password expires after (days): 90		
		-
	Concel	Sove

- With the Enforce Two-Factor Authentication option, you can make twofactor authentication mandatory for all the users in your account.
- By setting the **Password Expiration**, you can enable the password expiration option for all your users – you will be also be asked for the number of days before the users' passwords expire.

5.4.1 Changing Your Password for Credential-Based Authorization

You can change your existing account password by performing the following procedure:

- 1. From the **Settings** >**Security** page, in the Personal Password Policies panel, click **Change Password**.
- 2. The Change password pop-up is displayed.

Change password	×
Current Password:	
New Password:	
Confirm New Password:	
	SAVE Cancel

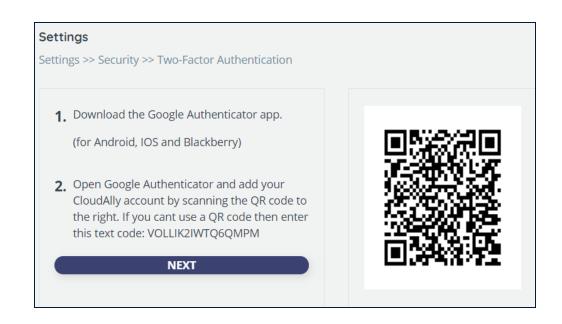

- 3. Enter the current password in the Current Password field.
- 4. Enter the new password in the New Password field.
- 5. Re-enter the new password in the Confirm New Password field.
- 6. Click SAVE. You can now use this password to access your account.

5.4.2 Two-Factor Authentication

Two-factor authentication provides additional security to your account and your backup data.

To enable two-factor authentication:

1. Click Activate 2FA. The Two-Factor Authentication page is displayed.

- 2. Download an Authenticator app, depending on your platform.
- 3. Open the Authenticator app and add your account by scanning the QR code provided in the web application.
- 4. If you cannot use a QR code, then enter the text code provided in the web application.
- 5. A six-digit code is generated.
- 6. Click **NEXT**.
- 7. Enter the 6-digit code that the application generated.
- 8. Click **ENABLE** to complete the process of activating the Two-factor authentication.

From now on, every time you sign in to your Account, you are asked to enter a 6digit code from your authentication app, after you click **SIGN IN**. Click **VERIFY** to verify the code and access the application.

5.4.3 SAML

The Security Assertion Markup Language (SAML) is an open federation standard that allows an identity provider (IdP) to authenticate users and then pass an authentication token to another application known as a service provider (SP).

CloudAlly supports Okta as its SAML provider.

There are two steps to setting up Okta so that you can use it to log in to CloudAlly:

- Setting up Okta in the CloudAlly application
- Setting up CloudAlly in the Okta Application

5.4.3.1 Setting up CloudAlly in the Okta Application

 In the Okta application, click Applications > Applications > Browse App Catalog.

okta		Q Search

After clicking Confirm, the Activate state (top right corner of the screen) changes from **Email & Password: Active** to **SAML: Active.**

Email & Password: Active	SAML: Active
--------------------------	--------------

5.4.4 IP Restrictions

Need fine-grained access control of your endpoints? You can restrict access to the Portal based on the users' IP addresses. This is especially helpful to enforce security policies and prevent unauthorized access by limiting backup/restore requests to company-approved IP addresses, such as an office IP, or a particular VPN.

Setting Up IP Restrictions

To enable IP restrictions in your account, first create the list of trusted IP addresses.

IMPORTANT!

It is strongly recommended to use this feature only if you have a static IP address, to prevent users from being locked out.

1. In the *Settings* panel, click **Security**, and then **IP Restrictions**.

3		bob.smith@ca4software.onmicrosoft.com Bob Smith Log Out 📄
lomepage	Settings Settings > Security	Email & Password: Active
jobs	Possword IP Restrictions SAML	
Recovery	IP Address Restrictions Settings	Your IP Address: 79.182.47.197
8 Activity	IP Address restrictions allow you to control who can access your account based on their IP address. Once you configure a set of trusted IP addresses and anable IP Address restrictions, any user attempting to log in via an IP address that is not You can define a single IP address or a range of IP addresses. powered by aws				

5.4.5 Email Notifications

Whenever you enable or disable IP restrictions, or modify the addresses, CloudAlly will send you an email notification, letting you know what has changed.

5.5 Notifications Settings

This menu option enables you to manage your system notifications. From the Navigation Panel, click **Settings** > **Notifications**.

Summary Report							
Report Format:							
Backup tasks overview	Preview			Report Frequency:			
O Backup failure details	Preview			Once A Day 🗸 🗸			
Provide as:							
O CSV Attachment				Send the report only in ca	ise of backup failure		
Ownload Link							
Download Link							SAV
						(+)	SAV Add new rec
Download Link end Notifications To: Email	Display Name	Summary Report	Recovery Notification	Exceptions () Notification	Auto Discovery Notification	(+) / Smart Alerts	_

The top of the screen enables you to configure the following options:

- Report Format: Backup tasks overview vs. backup failure details
- CSV Attachment vs. Download Link
- Report Frequency: daily, weekly or monthly
- Send the report only in case of backup failure

To set up a new recipient:

- 1. Click + Add new recipient.
- 2. Enter the Email of the recipient and the Display name. The Display name is used in the report email to address the recipient.

- 3. Select the desired notification types:
 - a. Summary Report
 - b. Recovery Notification
 - c. Exceptions Notification
 - d. Auto Discovery Notification
 - e. Smart Alerts
- 4. Click **SAVE** to create the new recipient. You may need to scroll to the bottom of the page to find **SAVE**.

					SAVE Cancel

6 Managing Subscriptions and Payments

6.1 Subscribing to CloudAlly

Once the trial period has ended, you need to subscribe to CloudAlly to access and manage your backups, otherwise your backed up data will be deleted.

To subscribe to a plan:

1. Click the Subscribe link displayed in your account. Alternatively, you can click the Billing option of the Navigation Panel.

The *Review Billing* page is displayed with the option to select either **MONTHLY** or **ANNUAL** billing options.

Note: You can subscribe before the end of the trial period, and the payment period will start after the trial period is over.

2. Click **MONTHLY** or **ANNUAL**, depending on your preference.

You are redirected to the *Payment Details* page. Fill in the billing and credit card details to finish the subscription process. Refer to <u>Payment Details</u> for more information.

6.1.1 Monthly Subscriptions

When you subscribe to a monthly plan, the credit card that you registered in the *Billing > Payment Details* page will be charged the amount that you owe.

CloudAlly's billing is handled by a PCI-compliant payment processor.

To finalize your subscription, enter your credit card details and general billing information, and then click **Subscribe**.

The initial payment will be charged at the end of your 2-week trial period.

A receipt will be emailed to you each month after you are charged.

If CloudAlly is unable to charge your credit card (e.g., because it has expired), you will be notified by email.

Additionally, a message will appear in the application that you need to go to the *Billing Status* page so you can review your billing details, and then update your credit card information if necessary.

Note: The billing status is usually updated within a few minutes after the payment is complete. If the status has not updated after 24 hours, please contact support@cloudally.com.

	DALLY Cloud to Cloud Backup	A Payment Failed; Unable to charge your credit card.	Updated on Nov 07, 2022	bob.smith@ca4software.onmicrosoft.com Bob Smith Log Out 📑
() Homepage	Billing Billing > Status			

Note: The monthly payments are processed automatically once you provide the required information in the Payment Details section, and it has been verified that your credit card is valid. To disable automatic payment processing, please contact CloudAlly support. Instead, you will start receiving monthly invoices for the payments.

6.1.2 Annual Subscriptions

When you subscribe to an annual plan, you will receive a confirmation message that your request has been submitted, and then CloudAlly support will send you an email, asking that you confirm your annual subscription request.

Once you have confirmed, CloudAlly will email an invoice to you, payable in 30 days by credit card, PayPal, or bank transfer.

After the initial payment, CloudAlly will send you an invoice 30 days before your payment is due, in 11 months. You will also be reminded that your annual subscription is due online:

Note: The billing status is usually updated within a few minutes after the payment is complete. If the status has not updated after 24 hours, please contact support@cloudally.com.

Should you fail to make your annual payment, you will be reminded with a message like this:

After you finalize your subscription, the *Billing > Payment Details* page displays additional billing management options and provides a brief summary of the payment information for the current period and the next payment date.

6.2 Payment Details

Payment Day:	4		

6.2.1.1 Add New Card

The **ADD NEW CARD** option enables you to define your card information for a monthly subscription payment.

1	Billing						
	Billing >> Payment details						
I	Monthly subscription, next	payment: Dec 13th 2020					
	Credit Card Det	ails					
	Card Number:	undefined: XXXX-XXXX-XXX	XX-444 🗸				
					ADD NEW CARD	ACTIVATE CARD	Delete card
	~ Add new card c	etails					
	Card Holder's Name:	Card Holder's Name:					
	Card Number:	Card Number	MM / YY	CVV			
						A	DD NEW CARD

To create a new payment method:

- 1. Click ADD NEW CARD.
- 2. Enter the card details such as Card Number, CVV, Card holder's name, and card expiry date.
- 3. Click ADD NEW CARD.

The new card information is saved and activated, and you can use this card.

6.2.1.2 Change Payment Method

To change your existing payment method:

- 1. Click the drop-down list and select the payment method from the Cards Number drop-down list.
- 2. Click the payment method from the list (the screen shot below depicts choosing a different credit card).
- 3. Click **ACTIVATE CARD** to set the selected card as the preferred payment method.

Billing		
Billing >> Payment detail	S	
Monthly subscription, ne	xt payment: Dec 7th 2020	
~ Credit Card D	etails	
Card Number:	CREDIT: XXXX-XXXX-XXXX-5048 (1 🗸	
	CREDIT: XXXX-XXXX-XXXX-5048 (12/2025)	
	CREDIT: XXXX-XXXX-XXXX-1111 (12/2023)	ADD NEW CARD ACTIVATE CARD Delete card

The details section displays billing information such as Currency, Title, Name, and Billing email.

3. Scroll down for more fields in the Billing details section. The Company Tax ID field indicates your company tax ID. (This is mandatory for Israeli companies.)

Note: Due to Value-added tax (VAT), Israeli companies must include their Tax ID. Therefore, the Company Tax ID field is mandatory for Israel, and if this field is not completed, our company will not be able to provide you with backup services.

6.5 Billing Notification Messages

Administrators can define whether individual users will see the Billing Notification Messages on their screens (e.g., Payment Due, Payment Overdue, Payment Failed).

To turn notifications on or off:

- 1. From the Navigation Panel, click **Settings > User Management**.
- 3. Click "View billing notification messages" on or off.
